

IT SECURITY RISK ASSESSMENT

HOW SECURE IS YOUR BUSINESS?

NOT SURE IF YOUR CURRENT IT POSTURE IS FULLY SECURED?

While many Businesses have IT Solutions in-place, Willis Security provides Secondary Risk Assessments to make sure your Business' Cybersecurity is at the highest-level. Hidden risks can lead to costly breaches. We work hand-in-hand with your current IT Provider to deliver the highest-level of Cyber Protection for your Business.

WHY WILLIS SECURITY?

- Not all IT Providers are experts at Cybersecurity
- Unbiased Review: Independent, vendor-agnostic evaluation
- Actionable Insights: Clear, prioritized recommendations
- Expert Guidance: Cybersecurity specialists explain results and next steps

WHAT'S INCLUDED IN OUR IT SECURITY RISK ASSESSMENT?

- Vulnerability Scanning to identify exploitable weaknesses
- M365 Security Audit to ensure secure configurations
- XDR & Endpoint Analysis to detect advanced threats
- Compliance Alignment Check to meet industry cybersecurity standards

WHO BENEFITS FROM THIS ASSESSMENT?

- Organizations curious about their security posture
- Businesses preparing for compliance audits
- Businesses looking to prevent downtime & data loss
