WHAT DO YOU WANT TO GET OUT OF
THIS?

MOTIVATING CHILDREN

CASE STUDY

- An able and experienced educator is required for tutoring two young boys aged 10 and 7 for two weeks during the summer holidays at their family home in Bermuda
- The tutor for this position will be teaching all core subjects
- The tutor should be adventurous and engaging, ideally having a wide range of interests which they can share with the family and their enthusiasm for natural curiosity of the world around them should be infectious

CASE STUDY

- What are some examples of ways that you would use the environs of Bermuda to enrich a student's education in a one-to-one teaching context?

Thank you
