ACNE MANAGEMENT

Steam Decongest & Extract	119
Effective decongesting solution applied under steam to loosen congestion, complete with professional extractions & mask.	
+ Add on Enzyme Peel	49
ALA Blue LED Therapy	119
Gentle treatment works against acne by shrinking the sebaceous glands eliminating acne bacteria & reduces inflammation & hyperpigmentation. Suitable for mild to moderate acne. 4-8 treatments recommended.	
6 for 600	
IPL Dual Light Acne Technology	119
This dual light treatment destroys acne causing bacteria & reduces existing acne related inflammation. Treat both the underlying cause & the visible symptoms of acne by using a combination of blue & red light. Blue light destroys acne bacteria & red light reduces inflammation. Usually requires 6-10 treatments.
