Dermal Treatments

RF Octi Polar™ BODY CONTURING & CELLULITE REDUCTION

Get one step closer to the figure you've always dreamed of with non-surgical body slimming treatments. They use advanced technology to safely and comfortably deliver energy below the skin's surface, where it works to tighten skin and reduce circumference*. The result is a slimmer figure with a more defined shape. Today's treatments can target both smaller, hard-to-hit areas like the arms and jawline, and larger, more common problem areas like the abdomen and thighs. Venus Versa Radio frequency and PEMF provides gentle heating under the skin's surface to shrink fat cells and stimulate collagen and elastin fibers to firm, contour and sculpt the body. 8-10 treatments recommended weekly.

Venus Versa TRIBELLA™ TREATMENT **\$900**

TriBella three-in-one total facial treatments combine photofacial, anti-aging, and skin resurfacing to improve skin tone, elasticity, and texture. The TriBella photofacial treatment corrects discoloration, fades age spots, reduces sun damage, and improves skin tone. Then, the anti-aging treatment erases fine lines, reduces wrinkles*, and firms up skin. Lastly, the skin resurfacing treatment smoothens out uneven skin texture, scars, rosacea, enlarged pores, stretch marks, and other skin textural conditions.
