

Ms. Regina,

Hello. I recently became aware of an opportunity to receive Part 107 drone training through a program you are offering. Please allow me to share a little about who I am and how this training would be an incredible advantage in the in the development and advancement of my career.

I was fortunate to serve as a Mental Health Specialist in the U.S. Air Force from 1990 to 1996 (Airman 1<sup>st</sup> Class). Upon my return home from the Desert Storm conflict, I was shot and paralyzed near my home in Philadelphia, PA. As part of my occupational rehabilitation, I went back to school and received my degree in Computer Electronics. I would work in the I.T. field for the next 25+ years. Once my children were adults I decided to chase my dream of working in the TV, Film, and Photography industry.

I left the corporate world 6 years ago and have yet to look back; but to appreciate the journey I've been on. However, that journey hasn't been without challenge. As a result of my high activity, I can often experience issues with my stump/prosthesis which eventually sideline's me until fully healed. With the understanding that availability is a major prerequisite of success for the actor, I've had to occasionally shift to other creative outlets while healing; such as writing. I would love to add drone operation as well. The ability to operate one from my wheelchair if necessary keeps me off the sideline, creative, working and in good mental health.

When not acting or writing, I love exploring the world of photography and videography. I enjoy the art behind the camera as much as in front of it. The Part 107 drone training could seamlessly merge a number of my interest and simultaneously expose me to a profitable market that is currently in high demand. This would grant me a valuable opportunity to earn a living doing what I love while serving my clients and community. My life's goal is to entertain and inspire the world. I believe this training will assist me in doing just that. Thank you for taking the time to read this correspondence.

All the Best,  
Frank Sean Johnson
