Sold By: Each

H: 24" Inner Dia: 18" Outer Dia: 22.5"

**MERRILL**  
Precast & Supply, Inc

(bottom)

Our light-duty risers are a practical choice for residential customers who prefer an alternative to plastic risers. Designed to extend concrete tank openings to the surface, they can be fitted with a durable concrete lid for a clean, secure finish. While perfect for many applications, please note that these risers may not meet code requirements for new installations in certain counties. For questions or custom solutions, please call.
