MERRILL
Precast & Supply, Inc

Our heavy-duty concrete retaining wall blocks offer a quick and reliable solution for retaining walls. Measuring 6 feet long, 2 feet tall, and 2 feet thick, each interlocking block weighs approx 3,000 lbs, ensuring stability and durability. Designed to stack up to three high, these blocks are perfect for creating sturdy walls in a fraction of the time. For more information or to discuss your project needs, give us a call.
