L: 3' W: 2' H: 2'

MERRILL
Precast & Supply, Inc

Our 3-foot concrete retaining wall blocks are the perfect complement to our larger 6-foot blocks, allowing you to offset seams and enhance the structural integrity of your retaining wall. With the same durable design and 2-foot height and thickness, these 1,500-lb blocks provide stability and versatility for your project. For more details or assistance with your retaining wall plans, give us a call.
