

HISTORY

I. S. Engineers, LLC (ISE) was established in 2009 with a focus on innovative solutions and an emphasis on cost savings for both public and private clients. ISE draws upon a wide variety of staff and firm experience to produce high-quality work, be it feasibility studies, planning, schematic, PS&E, traffic modeling, operations and design, hydraulics and hydrology, structural design, and other transportation related design services.

Learn more about our clients and certifications, projects, and services by clicking the navigation bar at the top of “Home” page.

MISSION

Provide the best in class service to our clients. Make their success, our success. Provide innovative and cost saving solutions and strive to always exceed their expectations.
