

# **FLEETFUELLER**

## **STOCK CALCULATOR £385**

### **Fleetfueller Stock Calculator**

The Fleetfueller Stock Calculator was developed for a mobile fuel application where no probes could go in the tank and be fitted to the existing equipment. Unit connects to the pump via a 4-core cable for supply and pulse & a 2-core cable for a 2nd pump.

**Tank capacity 100 to  
100,000 liters**

**Max 2 pump input**

**12v AC or DC supply**

**Pulse inputs 10 to  
800 PPL**

**Low stock warning  
with audible alarm  
and N/O contact to  
isolate pump**
