

A UNITED PRACTICE of RESISTANCE

Vote No Evil

We refuse to vote for politicians that fail to protect inalienable human rights and fail to take forceful action to stop crimes against humanity like apartheid and genocide.

Anti-Racism Praxis & Punching Nazi Oligarchs

We're opposing racism, monochromatic retellings of our history, and pro-apartheid propaganda. We refuse to contribute our funds to the enrichment of nazi oligarchs.

Taking Action That Prioritizes Love of People & the Earth

We're putting our love for each other into action by supporting unions & workers, advocating for community care, and for sustainable stewardship of our planet.

Demand Sanctions & Food Sovereignty

We demand states that enact policies of apartheid or commit genocide be sanctioned. We must preserve & protect food sovereignty for all people.

7

These lifestyle changes are our baseline resistance practice. In addition, we'll get into "good trouble" as we each see fit via protests, refusals, and disruptions.

Resist War Taxes

We are each tailoring our war tax resistance practice to reflect our demand that the vast majority of our government spending be redirected to community care instead of militarism, surveillance, and policing.

Boycott & Conscientious Limited Consumption

We're limiting our consumption to need-based spending and supporting small businesses over companies that profit from apartheid or fail to embrace diversity.

Divest from Technologies of Violence

We refuse to support complicit companies that profit from ongoing apartheid, genocide, and crimes against humanity. We will divest & call for accountability.
