## Presentation Methods

Panel discussions between speakers | Mini interactive exercises | Public speaking sessions | Q&A | Formal lectures | Debates and discussions

## Blended Learning

Amplex encourages in-class attendance, as this leads to high impact engagement in practical classes. We do however respect the school calendar and therefore offer recordings after sessions.

## One-on-One Mentorship

Each Amplexer will have a midyear mentorship session with an appointed professional.

# WHY ENROL?

## 01 Gain Exposure

During this 9-month course, you will learn from industry experts and listen what they have to say.

## 02 Future Directed Learning

Although school has many benefits and necessary aspects, Amplex focuses on skill-development and topical issues which will be needed in the future.

## 03 Networking

Network with ambitious, like-minded individuals who share your drive for success. Forge meaningful, long-lasting connections that can open doors and create future opportunities.

# WHY ENROL?

## 04 Learn What You Don't Know

When developing skills, people tend to head in a direction of what is known. Amplex provides the opportunity for members to explore the unexplored.

## 05 Remain Relevant

At Amplex, our aim is to stay relevant with the leading trends of the real world and share these trends with our students.

## 06 Be More Productive

Minimise the world's distractions by committing to your future with consistent, weekly investment in your growth and development.

07

## Course Certificate

After completing this course and participating in at least 70% of sessions in-person, each student will receive a special certificate of completion.

08

## Push Your Comfort Zones

“Thus, you need to place one foot in what you have mastered and understood and the other in what you are currently exploring and mastering. Then you have positioned yourself where the terror of existence is under control and you are secure, but where you are also alert and engaged. That is where there is something new to master and some way that you can be improved. That is where meaning is to be found.”

09

## Acquiring New Skills

Leadership | Critical Thinking | Public Speaking  
| Effective Discourse and Reasoning | Reflective Learning
