Bradley B Bean PE

Serving The Natural Gas Industry For Over 25 Years

July 2017

B3PE At The WRGC

Come visit our booth at the 2017 Western Regional Gas Conference August 29-30 in San Diego, California to learn about our innovative design and analytic solutions.

GASWorkS™ 10.0 - Pan And Zoom Using The Mouse

Among the new features included in GASWorkS 10 is support for the mousewheel to zoom the GDI Image. Roll the mousewheel to either increase or decrease the size of the GDI Image by the *Zoom Ratio*. The *Zoom Ratio* can be changed from the Graphic Settings screen. Select the *Settings* item from the *Graphics* menu to access the screen. Click and hold the mousewheel to pan the image.

A reminder that GASWorkS also has an Automatic Pan & Zoom feature. Select (check) the *Automatic Pan & Zoom* option on the Graphic Settings screen to enable this feature. Click and hold the left mouse button in the GDI Display, then drag the mouse cursor to move the image. Click and hold the right mouse button in the GDI Display, then drag the mouse cursor up and to the left to zoom out, or drag the mouse cursor down and to the right to zoom in.

Click here to request a 30-day evaluation copy of GASWorkS 10. To upgrade today, download an order form from our website.

Training Update

The September Basic GASCalc and GASWorkS course in Colorado Springs is now full. This is our last scheduled training class in 2017.

If anyone is interested in sponsoring an off-site training course, please contact us at training@b3pe.com.

Software Update

Our work doesn't end on release day. Visit our Updates page to keep your software up-to-date with the latest tweaks and fixes. GASWorkS 10 users will find the latest revision posted on July 24. Please note that this update will not work with GASWorkS 9.

With GASWorkS 10 released, we are looking forward to developing the next version of GASCalc. If you are a GASCalc user, what features would you like to see added? What changes would you make to improve the user experience? Let us know at news@b3pe.com.

Our Products

GASWorkS™ - Affordable and robust network modeling.

GASCalc™ - Suite of gas system design and analytical tools.

StationManager™ - Regulator and relief valve station management solution.

WaterCalc™ - Suite of water system design and analytical tools.
