Thank you for picking up the first issue of the Morley Community Center Newsletter. The next issue will be in May.

This is our way of keeping you informed of upcoming events, changes being made and ways that you can become involved.

We are always interested in your feedback about what you would like to see happening in your community center. You are invited to attend our monthly board meeting which is held the second Wednesday of each month at 6:30 p.m. At the beginning of the meeting, the public is invited to voice any ideas, changes or questions they might have.

THANK YOU!

A big thank you to all who have supported the Morley Community Center. Whether it's volunteering, financial donations, donating of material goods, or participation in any other way, we would not be where we are today without you!

Your continued support is appreciated!

Ancestry Exploration

Join us in the computer lab every first Thursday of the month at 5:30 and we'll explore our ancestry together. Vicki Frye and Terry Stilson lead the gathering and assist people with building their family trees using online databases in Ancestry.com and FamilySearch.com. It's lots of fun learning more about our ancestors!

Computer Lab and Census

Don't forget the computer lab is open every Thursday from 4:00-6:00 PM. You can bring your own computer or use one of the Community Center's computers and type documents, make spreadsheets, or browse online. There will be someone there to help you if you have any problems. We will also be conducting computer classes so watch future newsletters and the outside sign for more information.

You will be receiving a postcard from the Census Bureau this month. Don't throw it away! Your identification number will be on the postcard to use if you choose to complete the census online. If you need assistance in completing your census form online, visit the Community Center's computer lab on Thursdays from 4:00-6:00 PM.

Watch our website for upcoming information.

FUN AT FITNESS CLASSES

A low impact, chair focused, exercise program, great for all levels of fitness. Each week we will incorporate cardio, stretching and strength training. Most of the routine will be done while seated in a chair. With modifications for increasing and decreasing the intensity of the workout, there will be something for everyone.

This will be a 20-30 minute Fun at Fitness program, You'll be able to watch your energy level, flexibility, balance, and strength increase.
