

## *What Is Deliverance?*

In its simplest form, deliverance is the process of casting out an evil spirit (Mark 1:25-26). I suppose the easiest way to explain deliverance is that deliverance is the key that unlocks the fullness of the ministry, power and promise of Jesus in a person's life. So often, we've unwittingly experienced the effects of generational curses. When a person is suffering under the effects of a generational curse, we see that they will tend to do things that they know they shouldn't do such as pornography, alcoholism, drug addiction, lack of forgiveness, thoughts of suicide, rejection and so much more. Deliverance exposes the works of Satan in our lives, and enables us to overcome Satan and his demons in Jesus name. In the past we would pray for people for a problem they were having, they would feel better, have a closer walk with the Lord, then only to fall back into the same sin rut that has kept the bound for so long.

Through the process of deliverance, the evil thing that gives us the wicked desires, the thing that accuses you to your mind daily telling you how no one loves you, it gets cast out in the name of Jesus, thus freeing the person of the thing that has been holding them in bondage for so long. Then we are able to see physical healing take place; in our experience we have seen cancers go away, heroin addicts get clean, alcoholics sober up, legs grow about an inch in length, blind eyes open, deaf ears open, the sick healed and the crippled get up and dance! Yes, really in Jesus name! We have even had the great privilege of seeing so many of our brothers and sisters in Christ be restored to their families, to their churches and most importantly so many have been restored back to Jesus through deliverance.

Jesus truly is the answer to your problems today. He is real and He will set you free today.
