# SEAVIEW RAILROAD

Serving Quonset Business Park and the Port of Davisville

## Multimodal Transportation & Logistics Services with Worldwide Reach

THE "CAN DO!"

**SEAVIEW**

**RAILROAD**

Seaview Transportation Company

# Being competitive in the global marketplace means having the right logistics partner on your side

For over 30 years Seaview Railroad has worked closely with our customers to provide personalized rail shipping solutions. Situated in the heart of the Northeast, our location, diverse range of services, 3PL partners, strategic rail and highway connections, and modern, logistics-centered infrastructure offer clients the ideal foundation on which to simplify their supply chain and better compete in today's marketplace – locally, nationally, or worldwide.

## Being strong in the marketplace

*means having the right infrastructure*

Seaview Railroad serves the 3000+ acre Quonset Business Park in Davisville, Rhode Island. The park is home to almost 200 different businesses that offer a full range of logistics and value-added services. When coupled with the connectivity of Seaview Railroad and area's marine, rail, and highway network, the Quonset Business Park is the ideal Northeast logistics center for business. It has an extensive array of modern amenities and

infrastructure such as upgraded utilities and an up-to-date wireless and fiber optic communications network.

Do you have specific requirements for your operations? Seaview can help you select, plan, and develop the parcel of rail-served, build-to-suit property that meets your company's needs. More than nine parcels ranging in size up to 52 acres are situated throughout the park.

## Being efficient and cost competitive

*means having the right transportation network*

Seaview Railroad is customer-driven, providing daily service and on-demand switching if needed. We reach all major rail carriers in New England: NS, CSX, CP, CN, NECR, NBSR, Amtrak, and MBTA, allowing shippers and receivers the ability to pick the quickest routing offering the most competitive pricing.

Quonset's custom in-park highway road system provides quick and easy access to

Interstate 95 and rapid connections to other major interstates and regional highways, making over-the-road product delivery to and from our rail line easy. Most markets in the Northeast are within one day's driving time or less from Davisville.

Seaview Railroad is not limited to land shipments. We also offer on-dock rail and can provide stevedoring services at the Port of Davisville, a designated Foreign Trade Zone (FTZ #105). The port has 6,800 linear feet of berthing space consisting of two piers (each 1,200 feet in length), a bulkhead, 31-ft. channel draft, and a 70-acre lay down area. A 160-ton crane allows for transfer of containers, bulk products, and break-bulk between ship and rail.

## Being nimble and flexible

*means having the right services at your fingertips*

By utilizing the resources of our parent company, Seaview Transportation, as well as those of our logistics partners, Seaview Railroad offers a complete range of transportation, 3PL, and development services including transloading, warehousing, cross docking, distribution, marine construction, light and general manufacturing, import/export, stevedoring, site selection, build-to-suit, and planning. With Seaview you can rely on door-to-door, trees-to-keys services. Our professional, knowledgeable staff will work with you to develop dynamic supply chain and infrastructure solutions that fit your specific needs. For more information on our capabilities, contact Eric F. Moffett, President, at 860-883-2080 or [eric.moffett@inrailgroup.com](mailto:eric.moffett@inrailgroup.com).

**Being successful means having Seaview Railroad at your side.... We get it done!**
