

# ***Advanced Discipleship Training***

*Christian Discipleship and Spiritual Growth & Maturity*

---

## **Learning Style Assessment Test:**

All learners have different styles of learning. Some learners are *visual* – they study with the help of visual support, others are *auditory* – they like listening and talking, and others are *tactile/kinesthetic* – they prefer to analyze text, highlight or underline it and take many notes. Most learners, however, have a *mixed learning style*. The important thing to remember is that any learning style can lead to successful learning. For further information and to find out what type of learner you are, see the links below. Each student/disciple should take a test regarding her or his learning style. A copy of the results should be emailed to the instructor for reference. We will try to keep in mind each individual's learning style throughout the training.
