Subject: PRIA Label and CSF Amendment – Addition of SARS- CoV-2 claims
and updating the Basic CSF based on the addition of new dyes.
Product Name: NOVIGARD (QUICK DRY)
EPA Registration Number: 69658-3
Received Date: 6/9/2021
Action Case Number: 00305892

Dear Mr. Lezdey:

The amended label and CSF referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, are acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Please note that the record for this product currently contains the following CSF:

- Basic CSF dated 10/18/2021

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition,

regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Luisa C. Samalot-Freire by phone at (202)-566-0609, or via email at samalot.luisa@epa.gov.

Sincerely,

Lorena Rivas

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING**

Avoid contact with eyes and skin. Avoid contact with food.

Not for use on food contact surfaces. Occupational handlers must use proper PPE and/or limit use to one hour per day.

PHYSICAL AND CHEMICAL HAZARDS

Flammable. Keep away from heat, or open flame or sparks.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Cleaning and General Use Applications

To clean, spray soiled area then allow to air dry. For spot cleaning, spray and wipe clean with damp sponge (or mop)(or cloth).

Deodorization Applications

To deodorize, spray on surfaces as needed. Spray surface or item until thoroughly wet. Allow to air dry.

To Disinfect Hard Non-porous Surfaces: For disinfecting, apply product to hard non-porous surfaces, wetting thoroughly with spray, sponge, mop, or by immersion in solution. Allow surfaces to remain visibly wet for 5 minutes. Allow to air dry.

Hospital Use: This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

In Food Handling Areas: (Sinks drain boards, cabinets, garbage cans, under sinks, and faucets), Use as start of day/end of day antimicrobial treatment on precleaned surfaces. Allow product to fully dry. This product must not result in the direct or indirect contamination of food products.
