Letter of Recommendation

To whom this may concern

It is our pleasure to recommend **Mr Ronit Vyas** who was associated with us as a participant in the Weekend Symbiosis E-Academy on Internationalisation – ‘Your Gateway to Europe’ in November-December 2022. This programme was designed for young learners to discover the different higher education systems in European Member States and build multicultural competencies by collaboratively working with European Buddy mentors for different projects.

Ronit has a strong interest in studying Master’s in Europe/USA specializing in Technology Management and Data/Computer Science. He chose this programme to equip himself with competencies to work with global teams and also explore the pathway to proceed for his higher education and work placement in Europe/USA. As part of his experience in this programme, he had the opportunity to engage with European students for collaborative work and European faculty for different sessions.

Ronit is very punctual, interactive and has displayed professionalism of the highest order. He is insightful and he strives to make the most of every opportunity. He worked in collaboration with his classmates and his buddy mentors from Italy & the Netherlands.

We are happy to recommend Ronit for his higher studies in Europe/USA and we are confident that he will contribute actively both in academic and extra / co-curricular initiatives.

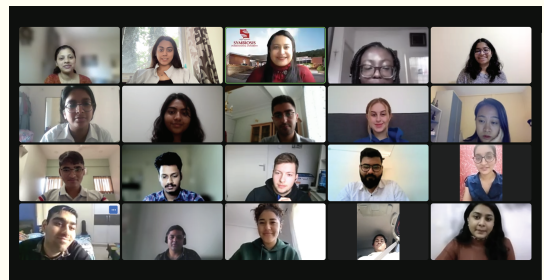

We wish him all the best!
