

Experience that pays off.

For many years now we have been using Cocktail-Joe in our family businesses. The machine was able to prove itself and prove its potential many times.

Trust in our experience and rely on us as your competent partner for all challenges.

Cocktail-Joe

Revolutionize your gastronomy.

Cocktail-Joe is an automatic cocktail machine that can be used to produce more than sixty different cocktails from eighteen different ingredients.

Automate your gastronomy.

Cocktail-Joe

Cocktail Joe is a fully automatic cocktail machine that prepares over 60 different cocktails at the touch of a button.

Almost no prior knowledge is required for operation to be able to operate our machine. Therefore, the machine allows you to offer cocktails of consistent high quality even if you do not have trained staff.

In addition, Cocktail Joe supports the sale of the cocktails by the atmospheric appearance. The control of the LED lighting gives Cocktail Joe a colorful, decorative show character.

Operation

Get started right away.

The machine is operated via a touch display. When designing the user interface, we put great emphasis on intuitive usability. All cocktails can be retrieved alphabetically and are prepared with just a few clicks. The operation is learned by every employee within a few minutes.

Mobility

Stay flexible.

Does your restaurant have many outdoor spaces, or do you operate a multi-purpose event location? In this case, we can recommend our rollable frame. This facilitates the transport of the machine enormously and always allows an operation in sight of your guests.

Lighting

Delight your guests in an atmospheric environment.

A real eye-catcher is the machine-integrated lighting. Thanks to the more than twenty individually controlled LED lamps, the machine creates an atmospheric atmosphere. The lighting also changes dynamically during use and turns every mixing process into a unique show.

Emblem

Set individual accents.

Would you like a seamless transition from our machine to your location, or would you like to highlight your own brand? In this case, we will be happy to adapt the machine to your wishes and deliver it with your own logo.

Recipes

Add your own note to your card.

You get Cocktail Joe as standard with our 63 own recipes, which have proven themselves with us for a long time. At your request, we can also program the machine freely according to your ideas and thus correspond to your recipe ideas.

Ingredients

Ensure transparency.

Thanks to the open design, your guests can always follow the mixing process live. All ingredients and brands used are visible and encourage the enjoyment of one or the other drink. This system continues to give you the greatest possible freedom in the choice of spirits used.

Quality

In the production of the machine, the quality of the materials used is particularly important to us.

The production takes place in Germany and is based on high-quality materials.

In order to meet the demands of the catering industry, we mainly rely on stainless steel.

In addition to the lighting, accents in tropical wood ensure a modern yet comfortable appearance.

Fully automated and individualized

The most important advantages at a glance:

- ➔ There is no need for professionally trained personnel to operate.
- ➔ Immediate operability by every employee.
- ➔ Cocktails precisely dosed to the centilitre..
- ➔ Always consistent quality.
- ➔ No error rate in the prescriptions.
- ➔ No loss of liquor.
- ➔ Significant increase in performance, due to the collaboration between people and technology

In order to be able to respond even better to your wishes, we have the opportunity to make adjustments with production and technology to suit your concept.
