Caliper Mt. Okay:

Brake Levers (firm):

Fluid level:

The following safety checklist is not comprehensive; it is the bare minimum for you to enter the track.

- Full-face motorcycle helmet - DOT Approved
- Leather or textile one-piece, or zip-together motorcycle suit
- Gauntlet-style gloves that cover the wrist
- Boots that cover the ankle

- Gas cap secured
- No fluid leaks
- Tires** must be in good condition without bluing from excessive wear, or cracking.
- Brakes** must be in good condition, with a stiff lever, and plenty of pad remaining.
- All **glass**, headlight, turn signals, and plastic lenses *must be taped over or removed*.
- Side mirrors must be *removed or taped over*.
- License plates must have bolts taped or be removed.
- Remove anything that may drag when leaned over, such as a center stand.
- You must have a kill switch and self-closing throttle

- battery terminals secured to prevent shorting.
- Firm shocks with no leaks
- Chain free play at center 1" min 2.5" max, 1.5" ideal. Ducati runs tighter, .75 is acceptable
- Check foot controls and pegs
- Foot peg feelers are suggested
- Check exhaust mounting
- Bounce front end check for issues
- Check all controls and grips
- Check for loose body panels
- Signs of leaks at forks or brakes
- Proper brake line routing, no rubbing/ chafing

- Required One-Way RACEIEVER** radio
Note: Rentals available.

- MUFFLER & DECIBEL LIMIT (New 2024)**
 - 70 DB @ property line.
 - Tech Test - 3500rpm 92 db @ 20'

I understand how to inspect my vehicle, or have taken it to a qualified mechanic for inspection. I take full responsibility for my vehicle's condition and safety on the track.
