Tires: _____ Tread depth: ____ / 32nds Wheel torque ft/lbs: _____

Brake pads: _____ Front pads: _____ mm Rear pads: _____ mm

Brake fluid: _____ Fluid level: High - Med - Low

The following safety checklist is not comprehensive; it is the bare minimum for you to enter the track.

- | | |
|--|--|
| <input type="checkbox"/> Helmet (Snell SA2000 or M2000 +) 2015 & newer | <input type="checkbox"/> Battery terminals covered |
| <input type="checkbox"/> Closed toe shoes | <input type="checkbox"/> Firm shocks with no leaks |
| <input type="checkbox"/> OEM seatbelts or 5-7 point harness, SFI38.1 neck brace and full or half cage | <input type="checkbox"/> Remove spare tire, jack, floor mats, dash mats, tools |
| <input type="checkbox"/> Convertibles must have factory roll-over protection or a 4-point roll bar and pass the straight line (broomstick) test. *see rules | <input type="checkbox"/> Remove cups, papers, and any other loose items in cabin and trunk |
| <input type="checkbox"/> Gas cap secured | <input type="checkbox"/> Driver and passenger windows down |
| <input type="checkbox"/> No fluid leaks - <i>If you bring a car with a leak you will not be allowed on the track - no exceptions!</i> | <input type="checkbox"/> A cooperative attitude. You are driving with other drivers, not against them. |

I understand how to inspect my vehicle, or have taken it to a qualified mechanic for inspection. I take full responsibility for my vehicle's condition and safety on the track.
