Form & Scale

1. POLISHED 1500

A mirror finish which reveals the maximum range and depth of colour of the stone aggregate.

- Properties:**
- Rich full colour definition
 - Mirror finish creates reflections
 - Classical terrazzo appearance
 - Slippery when wet

SLIP RATING		
	DRY	+40 PTV
	WET	<10 PTV

2. FINE HONED 400

Similar in appearance to Polished but more matte and less reflective.

- Properties:**
- Rich full colour definition
 - Matte silk finish
 - Classical terrazzo appearance
 - Slippery when wet

SLIP RATING		
	DRY	+40 PTV
	WET	15-20 PTV

3. HONED 60

This finish is similar in appearance to Fine Honed, but with a little more texture and anti-slip properties.

- Properties:**
- A more subtle colour definition
 - Abraded matte finish
 - Urban terrazzo appearance
 - Good anti-slip properties when wet

SLIP RATING		
	DRY	+60 PTV
	WET	+46 PTV

4. DIAMOND BRUSHED

A visibly riven textured finish creating a natural exposed aggregate surface with excellent anti-slip properties.

- Properties:**
- Good colour definition
 - Natural exposed aggregate
 - Novel terrazzo appearance
 - Excellent anti-slip properties when wet

SLIP RATING		
	DRY	+80 PTV
	WET	+60 PTV

5. SANDBLASTED

A bold texture with aggregate protruding at the surface, having excellent anti-slip properties.

- Properties:**
- Moderate colour definition
 - Natural exposed aggregate
 - Bold character terrazzo appearance
 - Excellent anti-slip properties when wet

SLIP RATING		
	DRY	+80 PTV
	WET	+60 PTV

6. FINE HONED SANDSTONE 400

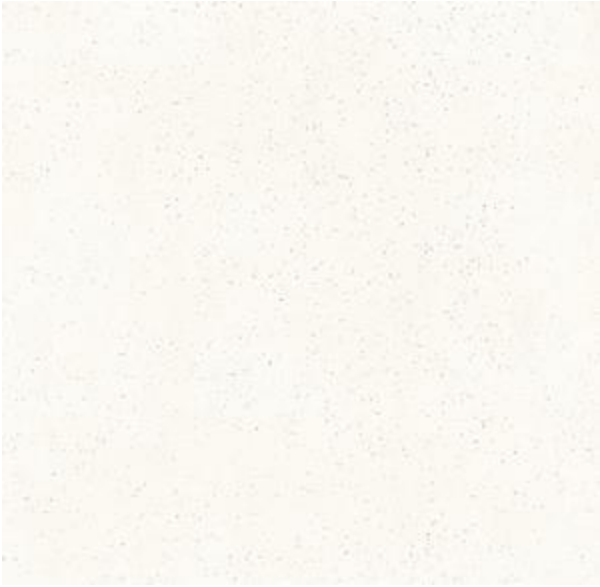

This surface is unique to sandstone aggregate terrazzo. Honed to a smooth finish with excellent anti-slip properties due to the natural micro texture in the sandstone.

- Properties:**
- Rich full colour definition
 - Matte smooth finish
 - Classical terrazzo appearance
 - Excellent anti-slip properties when wet

SLIP RATING		
	DRY	+60 PTV
	WET	+60 PTV
