When insurance is used to help pay for psychotherapy, the Managed Care Organization (MCO) must be given a psychiatric diagnosis and other pertinent personal health information (PHI). This will become part of a permanent medical record at the Medical Information Bureau, a national data bank. Charges for other services, such as telephone calls, emails, or copying/mailing records, may be based on the time involved in providing the service per the regular self-pay fee schedule. Some services may require payment in advance. The fee for court-related services is \$750 to appear plus \$150 per hour, including travel time to and from the facility. When requested, a receipt for all fees paid will be provided as well as appropriate documentation for filing for reimbursement with an out-of-network insurance carrier.
