

Business Growth and Development Workshops

Trond Frantzen will work with you and your executive Team to identify opportunities and formulate strategies for business expansion and revenue growth. He will help you identify ways to optimize operations and provide guidance in adopting innovative practices. Trond will help you identify and capitalize on emerging opportunities and focus on sustainable growth. He will guide you in developing a strategic “**Go Forward Plan**” for the successful growth and improvement of your business.

The PowerStart Group

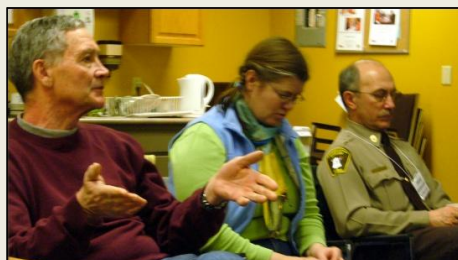

BUSINESS GROWTH & DEVELOPMENT

You're an emerging business. Now it's time to get better and stronger. No matter how demanding and challenging your situation, we'll help you get from where you are to where you want to be, with a robust “Go Forward” Plan.

Monthly follow-up: Trond will follow-up with you each month by Zoom for a one-hour progress meeting (at no additional charge) to determine how you're doing working against the resulting “**Go Forward Plan**”. He will provide ongoing guidance as necessary to support your progress. He will do this once a month for eleven (11) months.

Annual follow-up: In the twelfth month after your “Go Forward” Plan is produced, Trond will follow-up by Zoom. This review will last anywhere from an hour to a full day. This will be the final review of your progress against the “**Go Forward Plan**”, and the adjustments that may be needed. He will provide guidance to support your ongoing progress.
