

Business Growth and Development Consulting

David Waters will work with you and your executive Team to identify opportunities, analyze market trends, and formulate tailored strategies for business expansion. He will help you identify ways of optimizing operations, improving efficacy, and providing guidance in adopting innovative practices. Dave will help you identify and capitalize on emerging opportunities, and focus on sustainable growth. He will guide you in developing a strategic “Go Forward” Plan for the successful growth and improvement of your business.

David Waters

BUSINESS GROWTH CONSULTING

You're an emerging business. Now it's time to get better and stronger. No matter how demanding and challenging your situation, we'll help you get from where you are to where you want to be, with a robust "Go Forward" Plan.

Monthly follow-up: David will follow-up with you each month by Zoom for a one-hour progress meeting (at no additional charge) to determine how you're doing working against the resulting “Go Forward” Plan. He will provide ongoing guidance as necessary to support your progress. He will do this once a month for eleven (11) months.

Annual follow-up: In the twelfth month after your “Go Forward” Plan is produced, Dave will follow-up by Zoom (or on-site). This review will last anywhere from an hour to a full day. This will be the final review of your progress against the “Go Forward” Plan, and what adjustments may be needed. He will provide guidance to support your ongoing progress.
