MARION COUNTY CHAMBER OF COMMERCE
 GROWING, SERVING BUSINESS AND INDUSTRY

Have you ever noticed the homes for sale with a Realtor® sign in front usually sell quicker than the ones "For Sale by Owner"? It's a fact! Most homeowners have no selling experience, but they do have a job, which means if they had the know-how to do prospecting, advertising, qualifying, and all the other skills needed to close a sale -- they still wouldn't have the time necessary to get it all done. Let one of the professional Realtors in this magazine help you sell your home or find the home of your dreams. They have the training, the time, and they will make life MUCH easier for you!

Thinking of selling your home yourself?

Here are a few points you might want to consider before you begin:

1. *The right selling price is difficult to arrive at.* Besides not dealing with housing market trends on a regular basis, owners tend to see their home with an untrained eye and often overlook elements which have an impact on the property's true value.
2. *The process is much more difficult by trial and error.* Extra work, costly mistakes, frustration and confusion are common results of not being familiar with all the arrangements involved.
3. *You'll be on call day and night.* Without someone to qualify and screen potential buyers, an owner is subject to "drop-in lookers" at anytime who may or may not be seriously interested.
4. *Financing is a complex part of the equation.* Changing interest rates, points, terms, types of mortgages (FHA, VA, ARM, etc.) are especially difficult to deal with if you don't do it routinely.
5. *Price negotiations are tricky.* Without someone skilled in real estate transactions on your side of the table, you are likely to lose far more than any fee for professional services would amount to.
6. *The paperwork is a headache.* Title searches, mortgage forms, closing documents, and the rest of it can be mind boggling and time consuming. Taking days off from work to try to figure it all out and get it done is also an expense to you.
7. *Buyers are often wary of dealing directly with homeowners.* It is easier to speak frankly and ask direct questions with a Realtor than to risk insulting a homeowner. Buyers want to feel they are getting all the information they need to make a good decision without worrying about ruffling the feathers of the seller.
8. *The longer a home sits on the market ... the harder it is for anyone to sell it.* Buyers begin to wonder what's wrong with it, and will be less likely to look at it later, even if it is listed.

If you're sick, you go to a doctor. If you need legal advice, you go to an attorney. Doesn't it seem logical, then, that you would enlist the help of a professional Realtor when you embark on such an important task as selling a house? Any one of the Realtors in this book would be more than happy to work with you when you are ready to sell your home.
