6 of My Favorite AI Tools

01

Yutori Scouts

Monitor anything on the web

02

Gamma

Build presentations in 60 seconds

03

Agenda Hero

Convert anything into calendar events

04

Napkin AI

Turn text into diagrams

05

GoFullPage

Screenshot any full webpage in one click

06

NotebookLM

Chat with your own documents

 Total cost: **\$0**

TOOL 1

Yutori Scouts

Monitor flights, prices, job listings, news, competitor activity — get an email the moment something changes.

Yutori Scouts: How It Works

Before

Surf the internet routinely to search for a sale, flights, and check the news for subjects you care about.

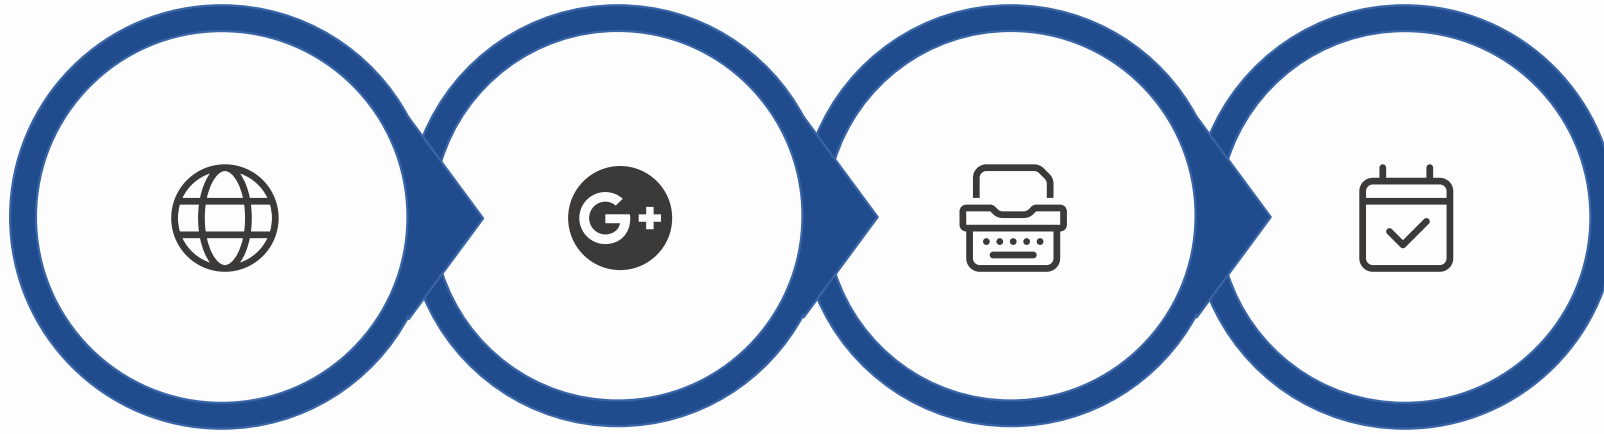

Now

Tell the Scout exactly what you're looking for and it constantly scans the internet, news sites and social media for the information and emails it to you immediately.

Free Tier

700 credits at signup + 200 credits free credits every month That's enough to run one Scout once a day for a month

"Track all new restaurant and bar openings"

Three Denver openings on April 8

I'm tracking fresh Denver Metro venue launches. Following last week's Aurora hot pot news, three bars and lounges opened on April 8, 2026, adding momentum across Aurora and downtown.

- Ultra Lounge — Bar/Lounge, 9755 E. Hampden Ave, Aurora, CO. Aurora's newest experience combining elevated food, music, and culture in a single venue. Opening date: April 8, 2026. [Yelp listing](#) .
- Teller Bar — Bar, The Renaissance Denver Downtown Hotel, 1601 California St, Denver, CO. Hidden gem featuring live music and curated cocktails as part of the hotel's revitalized lounge offerings. Opening date: April 8, 2026. [Yelp listing](#) .
- 54thirty Rooftop — Bar, 1475 California St, Denver, CO 80202 (Le Méridien Denver Downtown). Denver's highest open-air seasonal rooftop bar featuring crafted cocktails and globally inspired bites. Opening date: April 8, 2026. [Yelp listing](#) .

Why this matters: these openings broaden options across lounge, hotel bar, and rooftop formats—useful for planning spring guest experiences and neighborhood scouting, particularly around downtown's California Street corridor and Aurora's Hampden Avenue.

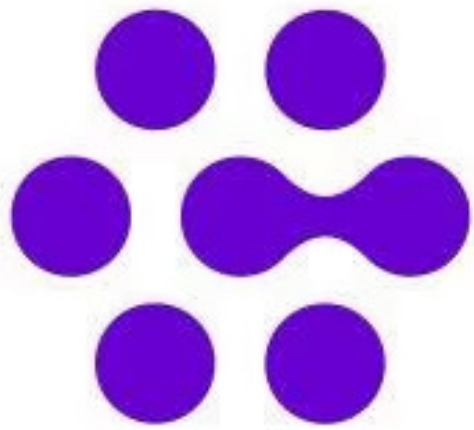

Report generated by **73 agents**, saving you **~26 minutes** of web browsing time.

Gamma

TOOL 2

Gamma presentations, reports, webpages

Type a topic. Get a complete, visually designed presentation, documentation or webpage in 60 seconds.

Gamma

Key Features

Before

Spend days manually building a Powerpoint presentation, website or designing in a document in Adobe.

Now

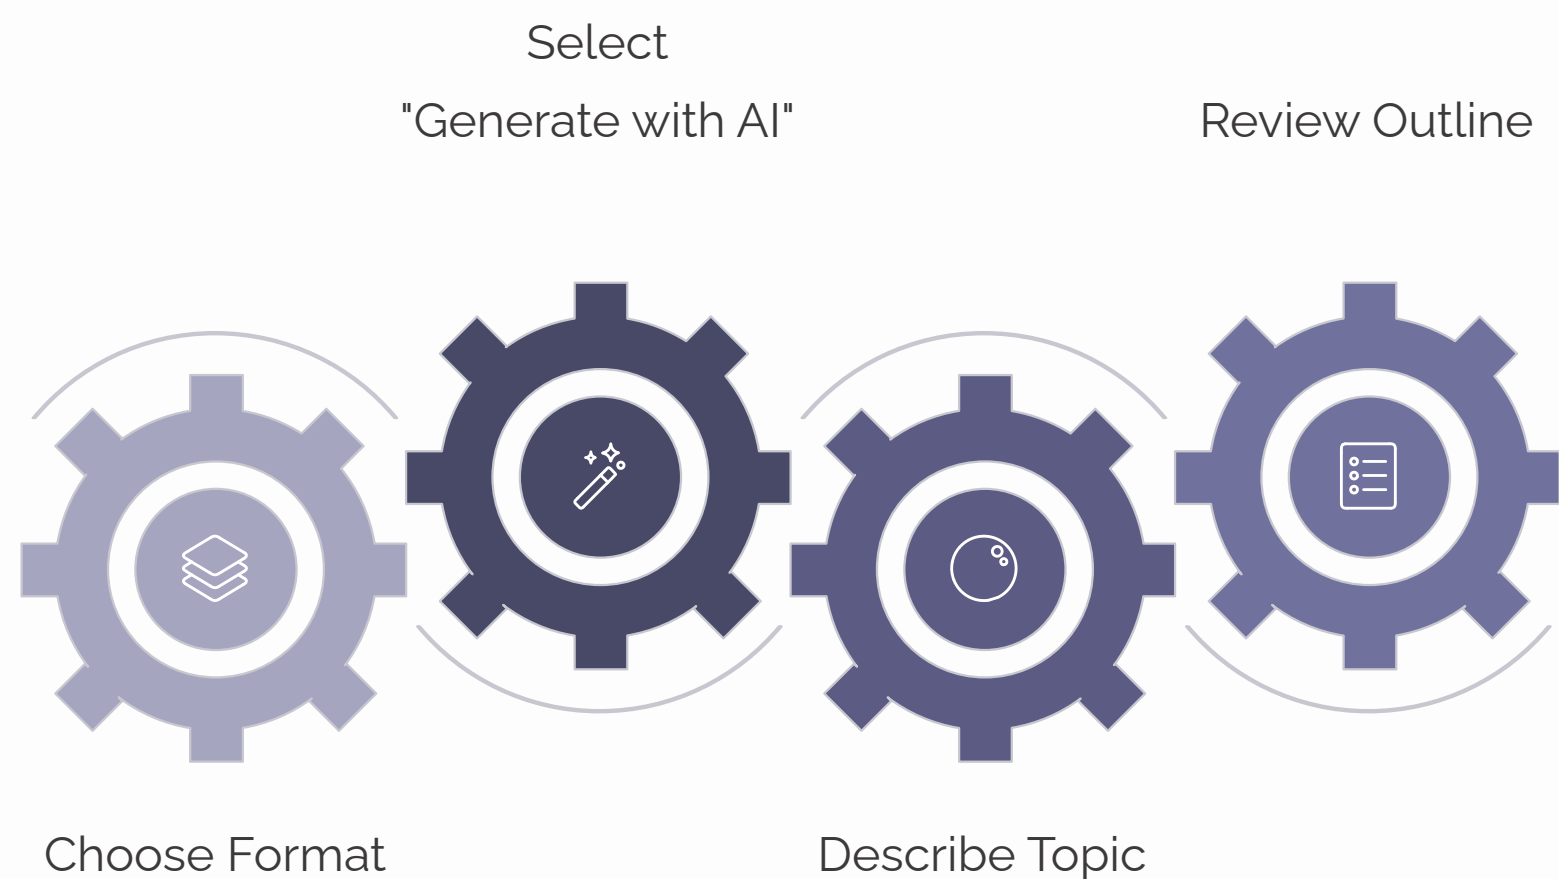

Type a topic and get a complete, visually designed presentation, document, or webpage in 60 seconds.

OR upload PDF, PPTX, Word doc, or URL and Gamma restructures it

Free Tier

400 AI credits at signup. That's enough for approximately 10 full presentations. Generating a complete deck costs 40 credits; smaller tasks like rewrites or adding a single slide cost 10 credits each.

Live Demo Create Your First Gamma Slides

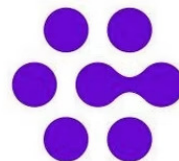

01	02
Choose Format	Generate with AI
Click "Create new" then select Presentation, Document, or Webpage.	Select "Generate with AI" to leverage smart creation.
03	04
Describe Topic	Review Outline
Provide a clear topic, like "Operation Pollination: what it is and why it matters."	Carefully review the generated outline – this is your free edit before credit usage.
05	06
Select Theme	Generate Deck
Choose from over 100 professionally designed visual themes.	Click "Generate" and your full deck will appear in 30-45 seconds.

LIVE DEMO

UPLOAD AND TRANSFORM

Live Demo

Upload and Transform

<https://denvermetrosouth.org>

Content Ingestion

Share & Export

Upload PDFs, PPTX, Word docs, or paste a URL directly. Gamma intelligently restructures your content into a polished presentation format automatically.

Easily share your Gamma via a live link, or export it to familiar formats like PowerPoint, PDF, Google Slides, or PNG – all completely free.

TOOL 3

Agenda Hero

Snap a photo of a flyer. Screenshot a schedule. Upload a PDF. Agenda Hero adds every event to your calendar automatically.

Agenda Hero

Transform any text, email, or webpage into actionable calendar events with ease. Never miss an important date again.

Before

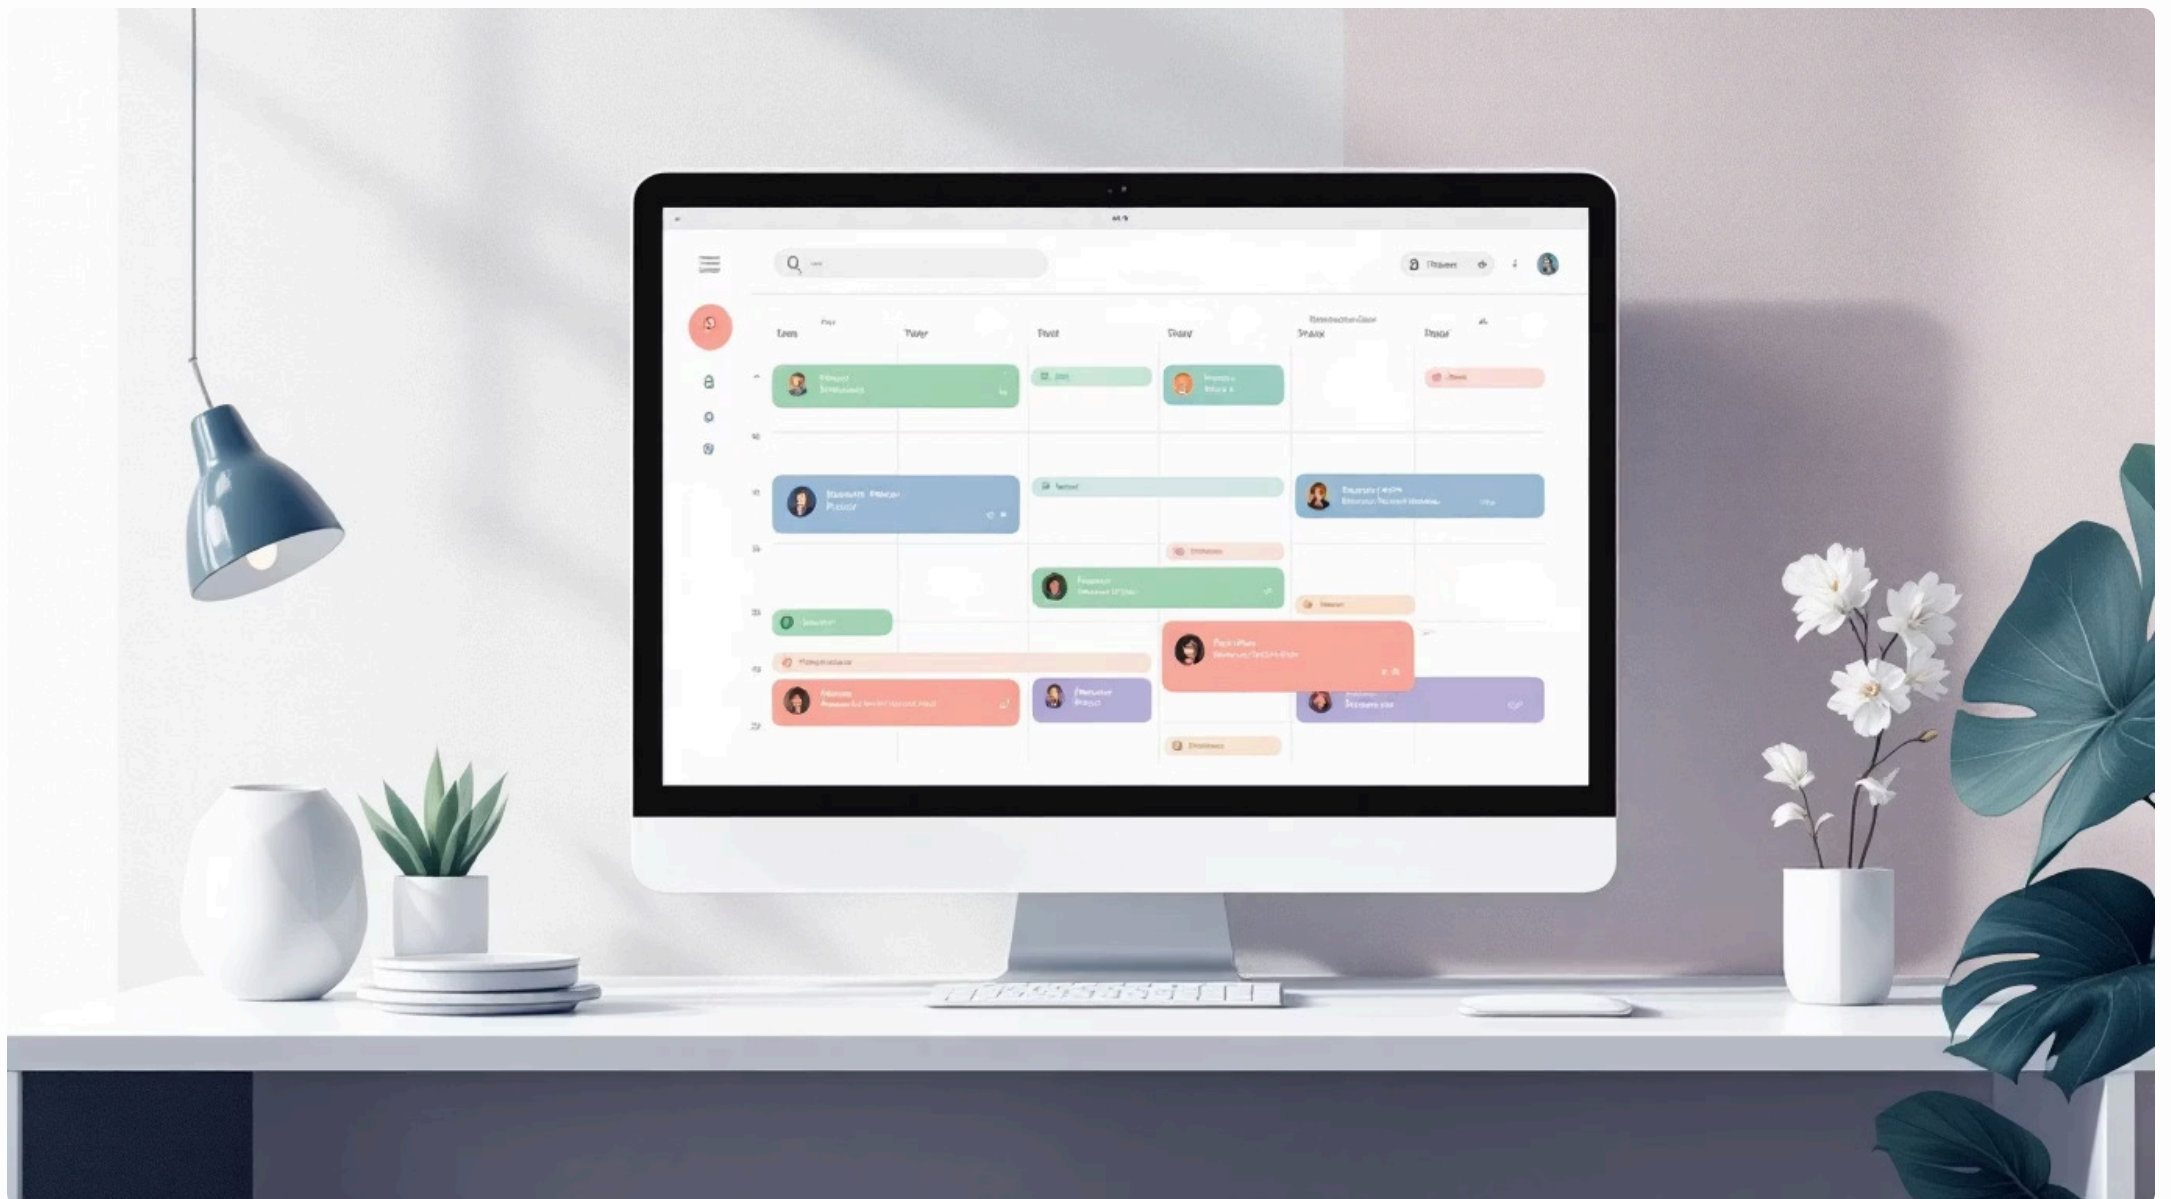

Manually creating calendar entries from emails, articles, or meeting notes, leading to missed details and wasted time.

Now

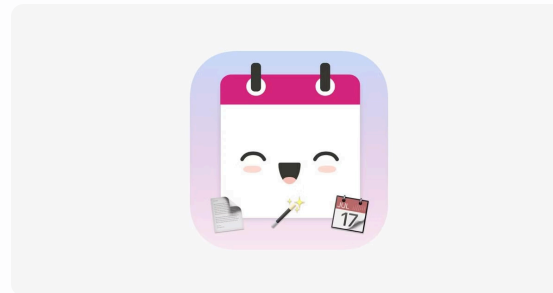

Simply take a photo of a flyer, a screenshot of sports schedule, or add a PDF of a meeting agenda. Click “ADD” and Agenda Hero adds all of the events to your calendar.

Free Tier

Unlimited creation of events from any text source. Paid plans offer advanced features like recurring events and deeper integrations.

Agenda Hero Three Ways In

1

Web App

agendahero.com/magic — no account required

2

Chrome Extension

Install, pin to toolbar, use anywhere.
(Highlight text on any webpage and convert it to a calendar link in one click)

3

Mobile App

Download it to your phone from the App Store or Google Play

Places events on Google, Apple, Outlook, and Office 365 calendars.

Always review before saving — AI reads context well but can misread ambiguous dates.

LIVE DEMO Agenda Hero

- Upload College Football Schedule
- Upload Rotary Schedule
- Take picture of press release or flyer

Pro Tip

Screenshot and crop to include only the relevant information before uploading – it increases accuracy significantly.

Napkin

TOOL 4

Napkin.ai

Paste your text. Napkin generates professional flowcharts, mind maps, and process diagrams in seconds.

TOOL 4

Napkin.ai

Napkin AI **transforms text into powerful visual diagrams** using artificial intelligence. Simply type or paste content you're working on—whether it's for a report, presentation, or teaching material and in seconds, receive multiple relevant visualizations like flowcharts, mind maps, and process diagrams.

Before

You'd spend hours manually crafting diagrams or using generic AI prompts in tools like OpenAI or Claude, constantly reiterating to achieve the perfect graphic or chart.

Now

Napkin builds visuals directly from your existing words. This fundamentally changes the workflow: paste your text, get professional visuals, customize with colors or icons, edit text, and export the image.

Free Tier

Enjoy 500 weekly credits, resetting every Monday. At approximately one credit per word processed, this covers several detailed, blog-quality visuals each week.

LIVE DEMO Napkin AI: From Words to Visuals

The rusty patched bumble bee was once a familiar pollinator across much of the eastern and upper Midwestern United States. Historically, it lived across 28 states, the District of Columbia, and parts of Canada. Since the late 1990s, its numbers have collapsed. The U.S. Fish and Wildlife Service reports that the species has declined by about 87% and is now found in less than 1% of its historical range.

In 2017, the rusty patched bumble bee became the first bee in the contiguous United States to be listed as endangered under the Endangered Species Act. Scientists believe its decline is linked to a combination of pressures, including habitat loss, pesticide exposure, disease, climate change, and the risks that come with very small populations. Its disappearance is more than the loss of a single species. It is a sign of stress in the ecosystems and food systems that depend on pollinators.

Option A: Paste Your Text

Paste meeting notes, a process description, or a strategy paragraph. Hover any paragraph → click the spark icon → browse visual options.

Option B: Generate Text First

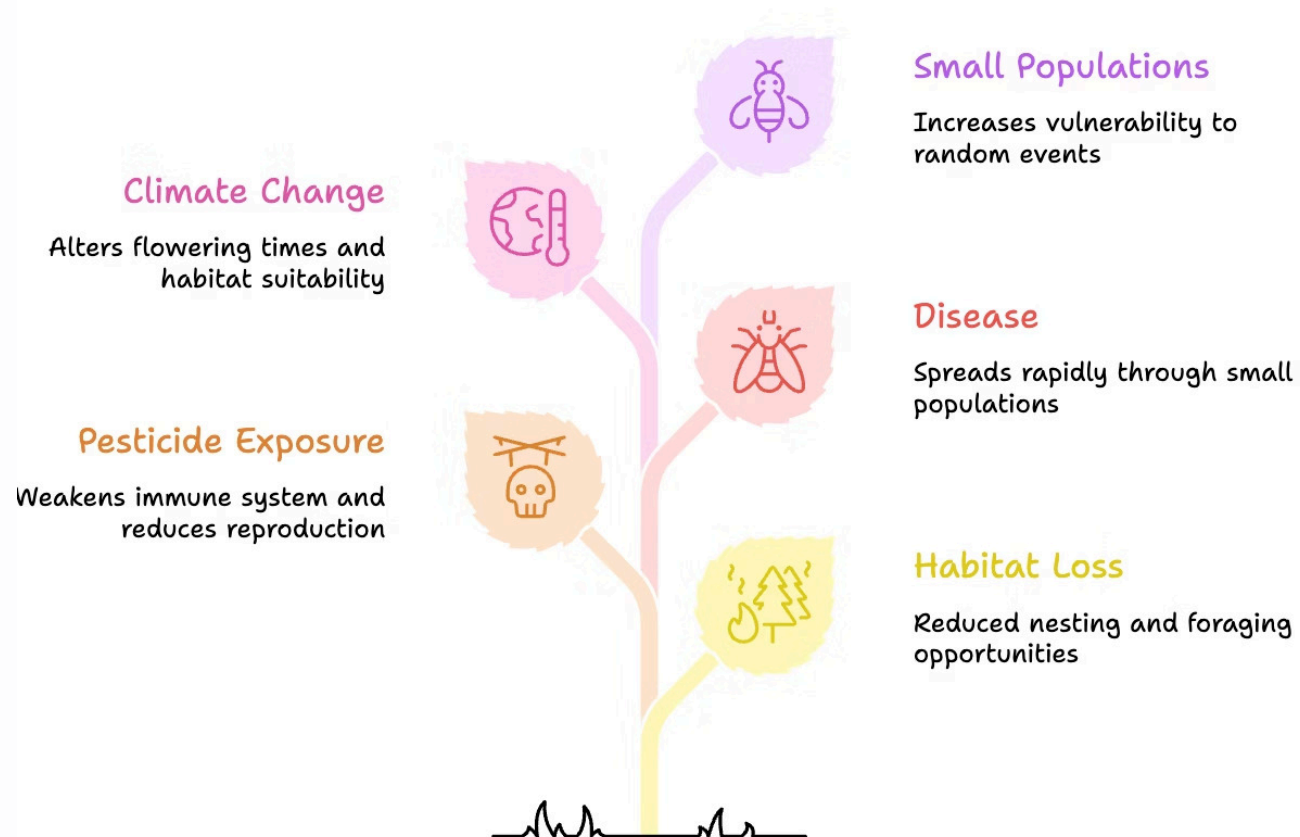

Type a topic, Napkin writes the text, then sparks it into a visual. Great for starting from scratch.

Export Everywhere

PNG, PDF, or SVG. Drop into presentations, newsletters, or blog posts.

TOOL 5

GoFullPage

One click. Entire webpage. Export as PNG, JPEG, or PDF. No account. No sign-in.

TOOL 5

GoFullPage

GoFullPage is the ultimate time-saver for capturing comprehensive website content. No more stitching together multiple screenshots – one click does it all.

What it is

The easiest Chrome extension for taking a screenshot of an entire webpage. In one click, it captures a full page, which you can then export to image, PDF, or copy to your clipboard.

Before

When you want to save a news story or a website, you screenshot it over and over again and then try to paste the the images all together.

Now

With one click of a button, capture the entire website then convert it into a PDF.

GoFullPage seamlessly integrates into your AI workflow, providing clean, complete webpage images in seconds. This makes it the fastest way to feed any website content into your AI tools like MyLens, Napkin, and AgendaHero, ensuring you have rich, visual data for analysis or creation.

GoFullPage: Why It Matters

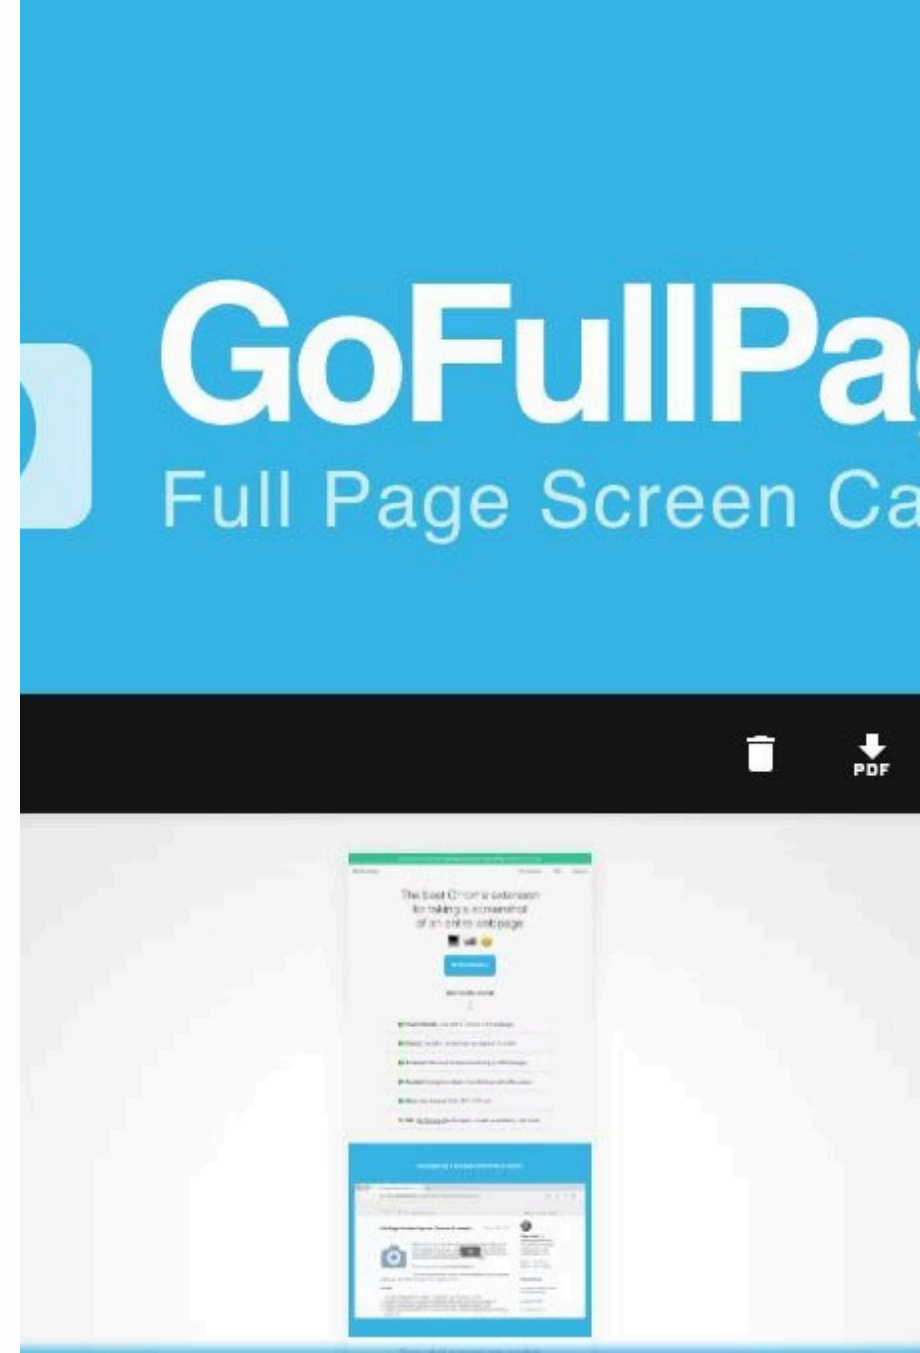

The Bridge Tool

Every AI tool in this workshop accepts images as input. GoFullPage gets you clean, complete images of anything on the web in seconds.

How to Use

Install from Chrome Web Store → click the camera icon (or Alt+Shift+P) → do not touch mouse while it runs → new tab opens with full screenshot → export as PNG, PDF or drag it on your desktop or into an email

TOOL 6

NotebookLM

Upload your documents. Chat with them. Generate summaries, quizzes, audio podcasts, slides, and more — all grounded in your sources.

NotebookLM

A free Google tool that transforms your uploaded documents into intelligent summaries, quizzes, flashcards, audio explanations, and study guides. It helps you stop reading everything and start understanding everything, with every output traceable back to your original source material.

What it is

Upload your own documents, lesson plans, or videos, and NotebookLM automatically generates summaries, quizzes, flashcards, audio explanations, and study guides from them, ensuring all information is grounded in your sources.

Before

You'd spend hours reading every document or manually searching for phrases using Command+F, leading to significant time investment and potential missed details.

Now

Consolidate your entire knowledge base in one notebook. Create topic-specific NotebookLMs for health, sports, or any subject, and instantly access the most current, verified information from your curated sources.

NotebookLM: The Walled Garden

Unlike ChatGPT, NotebookLM works **only with what you give it**. It cannot access the internet to invent facts. Every answer cites the **exact passage in your source**.

The Key Differentiator

Unlike general AI tools, NotebookLM operates as a "walled garden." It only uses the content you provide, preventing hallucinations and ensuring all outputs are traceable and fact-checked against your specific sources.

What you get:

- 100 notebooks free
- 50 Sources per notebook
- 500K words per source
- Endless usage (no time limit)
- 3 Audio overviews per day

Top 10 Ways People Use NotebookLM

1. **Academic Study and Exam Prep:** University students use it to convert dense textbooks and lecture transcripts into **organized study notes, flashcards, and practice quizzes**
2. **Journalism and Investigative Reporting:** Reporters use the tool to **interrogate large document sets**, extract entities like stakeholders or dates, and identify patterns or inconsistencies in evidence.
3. **Content Creation and Writing:** Authors and creators use it as a **"thinking partner"** to brainstorm slogans, outline blog posts, or check the logic and consistency of fictional stories
4. **Professional Research and Literature Reviews:** Researchers synthesize multiple academic papers to **find consensus or conflicting methodologies** without manual tagging
5. **Audio Learning via AI Podcasts:** Many users turn research papers, resumes, or personal documents into **Audio Overviews** to listen to "deep dive" discussions while multitasking
6. **Lesson and Curriculum Design:** Educators upload standards and past plans to **identify curriculum gaps** and generate structured lesson sequences
7. **Personal Knowledge Management:** Individuals upload years of **personal journals or book quotes** to analyze trends in their own reflections or extend their memory.
8. **Business Strategy and Market Analysis:** Professionals upload competitor analyses, financial reports, and meeting notes to **generate executive briefings, timelines, and product roadmaps**
9. **Product Development:** Entrepreneurs use it to build **customer personas and Product Requirements Documents (PRDs)** by synthesizing user feedback from forums like Reddit
10. **Science Communication:** Scientists use the tool to **translate highly technical research** into accessible formats like interactive mind maps and glossaries

LIVE DEMO NotebookLM: Studio Outputs

One-Click Outputs

Study Guide, Briefing Doc, FAQ, Timeline, Mind Map, Infographic, Slide Deck, Data Table

Audio Overview

Two AI hosts create a 6–15 min podcast from your documents.
Four formats: Deep Dive, Brief, Critique, Debate.
