

Interview me (the Get Started) Prompt

We're going to work on [project] together.

Act as a top expert with 10+ years of experience in [topic].

Do Not Start Yet.

First, ask me a series of questions one-at-a-time. Wait for my answer before asking the next one.

Don't start drafting the project until I give you the go-ahead to begin and you are crystal clear on exactly what I need and the format I need it in.

To make it even easier for me to reply fast, ask each of your questions in multiple choice format, so that I can answer with A, B, C, or D.
