Detox Intake Form

Information considered confidential.

Name: _____ Date: _____

Address: _____

Home Phone: _____ Cell Phone: _____

Email: _____

Emergency Contact: _____

Have you had or are you familiar with homeopathic treatment? Y /N

If yes, when and what? _____

Do you plan to pursue constitutional homeopathy with The Barefoot Homeopath or other (circle one)? Y/N

Are you currently working with a homeopath? Y/N

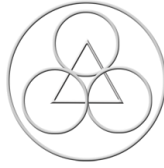

Has your homeopath given you a detox remedy or bowel nosode? Y/N

Were you in the military? Y/N

Have you been vaccinated for COVID? Y/N

If yes, have you been treated by a homeopath since? Y/N

List ALL medications, vitamins, or herbs you are currently taking, how long you take each substance, and why. _____

If steroid medications have been used to suppress a dangerous condition like asthma, adrenal crash, etc. in the past. If you've had steroids, it is likely that other detoxes will be less effective if attempted before the steroids are detoxed. If steroids have appeared to 'resolve' a condition, the condition may reappear when unsuppressed. For example: You may see the reappearance of eczema. Do not proceed with my detox appointment.

See a homeopath first. In my TBH Detoxification document, I offer alternative homeopaths for you. I offer Initial Consultations for case analysis.

In the detox assessment, I will need to know if you've been exposed to the following:

- Steroids
- Hormone Disruptors (Birth Control, IVF, & Labor Medications)
- HCG
- Vaccines
- Antibiotics
- Medications
- Recreational drugs

Other detoxes to be considered (these are pretty much a given):

- Molds/Fungus
- Pesticides
- Heavy Metal exposure
- Parasites

If you want to order Hair Mineral Analysis or Organic acids Testing, I'll send you information. I am not qualified to order the tests. You can ask your practitioner, or I can send you a recommendation.

I prefer you to mail or email this completed to me for privacy. Once this form is completed, please send an email to amy@thebarefoothomeopath.com for my mailing address.

Not intended to replace medical care. Amy Page, The Barefoot Homeopath (TBH), is not a physician and the relationship between TBH and clients is not of prescriber and patient, but as educator and client. It is fully the client's choice to determine how to interpret the information TBH presents. TBH does not claim that Homeopathy will "treat" an illness. Homeopathy addresses the entire person as a matter of wholeness and as an educational process, not a medical one. TBH believes that the advice and diagnosis of a physician is often in order.
