

*Intricate Homeschool*

The Home Education Body of Knowledge provides a broader perspective for a more intricate homeschool. This training is provided in a virtual setting; designed to introduce parents to key concepts, considerations, and controls for a more effective homeschool journey, while preparing each student for life beyond the books.

**Virtual:** Connect remotely from your preferred location with the option to work on or off camera.

**Interactive:** Engage with an energetic instructor who is knowledgeable about adult learning and multimedia use.

**Practical:** Discover practical knowledge, skills, and attitude that make your homeschool journey effective, using the Home Education Body of Knowledge framework.
