ACTIVE SHOOTING EVENTS vs. MASS SHOOTINGS

DIFFERENT SITUATIONS. SAME GOAL: **STAY ALIVE.**

ACTIVE SHOOTING EVENT (ASE)

AN INDIVIDUAL ACTIVELY ATTEMPTING TO HARM OR KILL PEOPLE

Attacker is actively moving and searching.

The situation is dynamic and unpredictable.

Victims are often random or opportunistic.

**Danger can change quickly.
You must keep making decisions.**

MASS SHOOTING

AN EVENT WHERE MULTIPLE PEOPLE ARE SHOT

Often occurs at gatherings and crowded places (parties, concerts, festivals, night life, events).

May be targeted or related to a dispute (gangs, retaliation, domestic conflict, etc.).

Common locations include public events, night life, bars/clubs, festivals, malls, parking lots, workplaces, and streets (shootouts).

**Violence may be concentrated.
Get away from the danger.**

YOU MAY NOT KNOW WHICH SITUATION YOU ARE IN.

Don't get hung up on the label. Recognize the danger and take action.

YOUR RESPONSE: ESCAPE → EVADE → ENGAGE

The choice is yours. Do what keeps you and others safe.

1. ESCAPE

- ✓ Get away from the danger.
- ✓ Use exits and alternate routes.
- ✓ Take others with you when possible.

2. EVADE

- ✓ If you can't escape, hide.
- ✓ Stay out of sight.
- ✓ Use cover and concealment.
- ✓ Keep quiet and be aware.

3. ENGAGE

- ✓ As a last resort, when necessary.
- ✓ Stop the threat.
- ✓ Use whatever is available.
- ✓ Work together if others are with you.

IF YOU ARE UNDER IMMEDIATE FIRE:

- ✓ Drop to the ground.
- ✓ Roll or crawl behind solid cover.
- ✓ Keep moving to better cover when possible.
- ✓ Stay low and don't stand up until it's safe.

DROP. ROLL. GET BEHIND COVER.

**SHOOTOUTS CAN HAPPEN IN THE STREETS.
GET TO COVER AND STAY DOWN.**

BE AWARE

Notice your surroundings.
Trust your instincts.

MAKE DECISIONS

Take action early.

HELP OTHERS

When it's safe.

STAY PREPARED

Know your environment.
Have a plan. Keep a calm mindset.

**YOU DON'T NEED TO IDENTIFY THE EVENT.
YOU NEED TO RECOGNIZE DANGER AND ACT.**
