

PUEBLA A CINCO DE MAYO STORY

Available as a virtual assembly

The Story

Puebla tells a universal tale of the underdog fighting impossible odds. The setting is the Battle of Puebla when a small army of Mexican soldiers and commoners defeated the French army, the strongest military force of the time, on the 5th of May (Cinco de Mayo), 1862. Through folkloric and contemporary dance, live music and elaborate costuming, the Company will elaborate on the history of the now-famous date and celebrate the culture and people of Puebla.

Virtual Assembly

Puebla is now available to come to your school or organization virtually! Our virtual assembly is available to license and comes with a study guide full of information and educational activities for students and teachers alike.
