Health Guarantee: We take great care in selecting our breeding stock, and continually strive to eliminate faults and health defects from our lines. Additionally, all of our puppies are given a thorough health exam by our veterinarian prior to shipping. Because of these factors, we rarely experience health problems with our puppies. **Please note that color, size, bite, & coat are estimated to the best of our ability, but are not guaranteed.**

Buyer shall be given a period of three business days to have dog examined by his/her own veterinarian. In the unlikely event that a health problem is discovered, and written diagnosis is supplied to us, dog may be returned to Divapoms for an exchange or refund of the purchase price. Divapoms shall not be responsible for veterinary fees incurred by buyer, and all returns shall be at buyer's expense. Fees paid for shipping & handling, health certificates and shipping crates are not refundable.

Satisfaction guarantee: We want you to be happy with your Divapoms puppy. If your puppy does not meet with your satisfaction, he/she may be returned, at your own expense and in good condition within two weeks for refund/exchange with the proof of initial vet visit, and age appropriate medical care (vaccines, worming, etc.). If additional veterinary care is required to rehabilitate a returned dog for any reason, all associated costs will be subtracted from any refund/exchange amount. Refunds/Exchanges on puppies returned within the guarantee period will be given as soon as the initial puppy's health has been evaluated by our veterinarian. There is a \$150.00 service fee for returns which will be subtracted from any refund amount.

Vaccinations: Puppies are given their first puppy vaccinations, wormed, and released in a healthy state. Maternal antibodies may interfere with early vaccinations. Therefore, follow up vaccinations should be administered by your veterinarian every 3-4 weeks until after 16 weeks of age. Failure to give vaccinations may result in a potentially fatal disease such as Parvo. Divapoms shall not be held responsible for health issues caused by infectious disease, hypoglycemia, malnutrition, accident, injury, or neglect after 48 hours from delivery/pick up date.

Shipping: We can ship from San Diego to most US airports (estimated shipping & handling charge: \$300-\$400 + Crate & Health Certificate fees. Freight must be prepaid and will not be refunded should your dog be returned. An airline approved shipping crate & accessories are required. Unless you prefer to send your own, we will purchase the crate & accessories for you for our cost of \$50.00. A veterinary exam and health certificate are necessary for shipping, and will cost an additional \$50.00.

Pick up/Delivery: Puppies are generally ready to go to their new homes at 8-10 weeks depending on how they are eating and if they are being picked up or shipped. If you require us to keep your puppy past 12 weeks of age, a \$200.00 fee will apply to cover the extra board, grooming, and vaccinations (maximum 1 month extra time).

Registration: Divapoms agrees to provide visual proof that our adult parents are AKC registered, but AKC papers will not be supplied with the sale of the puppy, as we want them in pet homes only. CKC registry is an option for an additional \$25.00.

Entire Agreement: This Agreement represents the entire agreement between the parties. Seller and Buyer have made no other agreements, promises, representations or warranties, express or implied, unless specifically stated in this Agreement.
