

## **WASHING INSTRUCTIONS**

**REMOVE** any removable pads! **HAND WASH PADS** to prevent cracking and damage to seams.

With uniforms come responsibilities with the care of the uniforms. Although you cannot wash every individual player's uniform, please utilize our detailed washing instructions attached in the PDF and email them out to your organization.

Uniforms should be washed immediately after each use if at all possible, in cold water.

The rinse cycle should likewise be set for cold water

We recommend a detergent similar to Tide for Coldwater

**Front load washers are not recommended** due to their high spin speeds. If you own a front-load washer, we recommend hand-washing in cold water or very gentle short cycle. Prior to washing, turning the garments inside out will help preserve the twill or print letters/numbers.

**Do not** wash uniforms with other items, such as towels

**DO NOT USE CHLORINE BLEACH!!**

Heavily soiled garments (grass, dirt, clay, mud), pre-treatment is recommended

- Spray on products such as Spray 'n Wash or Shout and leave on about 20 minutes to absorb
- before washing
- Products such as Stain Stick or Shout Gel can be rubbed on stubborn stains and left overnight for
- washing the next day as well
- For blood stains, it is best to rinse in cold water as soon as possible, and if necessary, soak in cold water before washing. One of the above pre-treatments can also be used or an oxygen
- based laundry booster such as Oxy Clean can also be used to for blood stains
- An oxygen based laundry booster such as Oxy Clean can also be used to eliminate odor
- For ink stains, use hair spray. Simply spray on and rub until the ink is gone. Then wash as normal

**DO NOT OVERLOAD WASHER.**

**\*\*\*\*\*DO NOT DRY UNIFORMS\*\*\*\*\***

Remove uniforms immediately after washing and hang dry all garments. High heat can cause shrinkage, print ink to crack, twill to wrinkle, etc.

**DO NOT DRY CLEAN OR IRON.**
