

Mega Marbles In Net Bags		Glasfirma International (Guadalajara, Mexico) has been a leading manufacturer for over 90 years, exporting marbles to over 40 countries. In other countries they are branded "Vacor" marbles. In the U.S.A. Glasfirma marbles are branded "Mega" Marbles. Credits: Most of the marble photos are adapted with permission from the website https://www.billes-en-tete.com. Most of the marble descriptions are adapted from Land of Marble's spreadsheet, http://www.landofmarbles.com/MM%20Production.xls Didier Gilles gave me permission to adapt pictures and descriptions from his amazing website: (billes-en-tete.com). Please Note: Not all Glasfirma Mega® Marbles are pictured. Red bolded titles mean the marble has been "retired". The ** sign means the marble was produced in other colors. Iridescent means the marble is really shiny. Frit is tiny chunks of glass melted into the marble. [Rich Maxwell www.MarbleKeeper.com 2024] 				
Red Base 	 Rooster	 Pterodactyl	 Mars	 Cardinal	 Superhero / Odin	 Fire
	(03-current) See-thru red base with white swirls.	(09-13) Transparent red base with green & yellow swirls.	(06-15) Red lightly to heavily speckled with black.
