Others That Loved Us

Dionne, daughter of person living with dementia

The team conducts thorough research, explains things clearly, supporting me and my entire family. **Working with Tembo Health has been one of the best decisions I've made** in supporting my mother on her journey.

Katie, partner of person living with dementia

With the help of the Tembo care team, we have **clinicians and healthcare professionals who really understand my father's condition** and how to navigate the healthcare system.

What Is GUIDE?

GUIDE (*Guiding an Improved Dementia Experience*) is a new Medicare program that allows Tembo Health, alongside your Primary Care Provider, to provide added support and resources for people and families living with dementia at no cost if they have original Medicare, do not live in a nursing home, and are not enrolled into hospice or PACE.

About Tembo Health

Tembo Health's mission is to make managing dementia easier. We support families on their dementia journey through comprehensive dementia services, personalized treatment plans, access to specialists, and compassionate care.
