RE: Public Health Nuisance on BLK 5 LOTS 4-5-6 Leith Original Town, Leith ND 58529

To Whom It May Concern:

On August 29, 2013 I inspected your property at BLK 5 LOTS 4-5-6 Leith Original Town, Leith ND 58529 at the request of the City of Leith. At that time, the property constituted a Public Health Nuisance according to NDCC 23-35-09 due to:

- Rodent/Vermin Harborage: Openings in the structure, porch, and roof of house and outbuildings causing a rodent/vermin harborage.
- Vector Harborage: Long grass providing mosquito harborage.
- Danger to the Public Health: Outbuilding structures open to the public and falling down.

This is your **NOTICE AND ORDER** to have the nuisance abated **NO LATER THAN 30 DAYS** from receipt of this notice. The structures must be sealed from entry by rodents/vermin or be removed and landfilled in a licensed landfill. The grass must be cut and kept at an appropriate length to reduce mosquito harborage. If the property is not abated in the allotted time, the local governmental entity may abate the nuisance and bill the expense to the property taxes.

If there are any questions, please contact me at 701-667-3370.

Sincerely,

Aaron Johnson, REHS  
Regional Environmental Health Practitioner
