RK II aka RK2 releases TENNECALI Volume II

RK II aka RK2's latest project release, TENNECALI Volume II, has hit the airways and is now available on all digital platforms. TENNECALI Volume II was recorded and co-produced by Southern California producer PIMP. PIMP's contributions were substantial as he is a very talented producer with a great ear for music. RK II aka RK2 specifically loves the way that PIMP was able to enhance the tracks with his exciting sound ideas. Long time RK II aka RK2 collaborator CX3 contributed to TENNECALI Volume II as he did the final mix and master of the song Purple Focus. The project is an EP release that includes five new songs that include: Purple Focus, Mind Blown, Switch It, AOMD and Back on Back. The project represents Volume II of the TENNECALI series that RK II aka RK2 launched in 2021.
