Kokosing (OH-08-206-69) is a 2016 Certified variety Ohio State University release. This is a non-protected variety whose yield performance on the average is 13 bu./acre higher than “Malabar” and “Bromfield”, three days earlier in maturity. In addition, this variety has excellent foliar ratings as regards foliage health and good FHB resistance, strong straw strength and below average test weight. It is resistant to Powdery Mildew and Staganospora leaf blotch and moderately resistant to Stripe Rust. This variety has tan colored chaff and is apically awnleted.
