dear bro Truman & family,

So very good to receive your letter of 3 Feb 2019.
We all are right where The Lord allows us to be.
We do not know His mind but can be certain
of his promises, Rom. 8:28; Matthew 5:10-11, etc. The
same enemy of Gen. 3:15; and who persecuted Job;
so many others, keeps trying and failing.

This letter came in, no copies. The poor
things are so mixed up, they're sure soon to fall.

Your winter temps and conditions sound a
lot like NE Iowa and southern Minn. where I
have lived several seasons. No quakes that I
know of, tho' they are on the New Madrid fault.
This year our family in Iowa tell me they've
broken the record for annual snow fall, so they
too have been shoveling and blowing.

I've been told moose is good meat. I've had
a deer; a little elk and Bison, all good. We were cattle ranch-
ers all the while I grew up. 25,000 bales per year; fences to
ride and repair; calves, etc. to wrestle a great time to be
a part of it. My father, uncle (2); and grandfather all had
cattle. When I and my cousin graduated from high school
they all sold out; Didn't want to handle 25,000 bales them-
selves. 😊 I would have loved to stay but family insisted
I had to do college and get a good job. 9 yrs. of college;
legal education I learned you don't learn much ex college, just
brainwashing. Had to learn TRUTH in The Word and in action.

2/ The majesty of our Creator's work!

Your father was certainly on-point: being a Christian is not for sissies.

Ole' Sam Adams cut to the chase, didn't he? Today we see "America's Troublemaker," he lays in a hammock, half

asleep, nursing a beer. Probably doesn't even know of the crashing reality all around him. Sam pointed right at the trouble and calls 'em out, doesn't he?

My ole' friend Ford Davis, Jr. pointed Sam's quote and the trouble out to me several years ago, before he went home to be with The Lord at 63, in 1997. Long story but it appears his prostate cancer was due to poisoning him and 63 year old King Hussein of Jordan.

Word re Islam and re Boethia is of serious investigators. Neither gov't nor lame-stream media, just so you can know, as you reflect.

As spring eeks through on Kevin Pennixenla, know you and yours are in my ♥ and my prayers.

with love of Christ,
your fellow servant,
