"narrow is the path and few there be who find it."

by: "The Light" 19 June 2020, Friday, PM

Meine Liebe Border Human,

Greetings! God is always blessing us. A few days ago my blessing was your 3 June letter, a blessing I've read a couple times, as I continue our conversation here, in this "real cowboy mailing". ☺

My little fan, 12", blows away in this 7'x10' bunker as outside summer temperatures loom around 90°. In just 2 days summer officially arrives. I believe my cousin Glenna will be 65. Many years ago we celebrated her birth-

day, as summer arrived. Her family lived in the small town of Greede, Iowa, so a high point was being able to ride bicycles on the "smooth" city streets. ☺ Often those gatherings were at Perrin Park, the city park. Space to stretch our growing wings. The large Cottonwood and Oak provided shade and below was plenty of open space on grass. The Shellrock river flows along the west side of the park. ☺

Gee! I have recollection of riding bare back with neighbor boys. While we had saddles, we did not bother with them just to adventure around the area. We did bother to throw the blanket on like wild indians tho'! Ha! Ha! Those too, were good times.

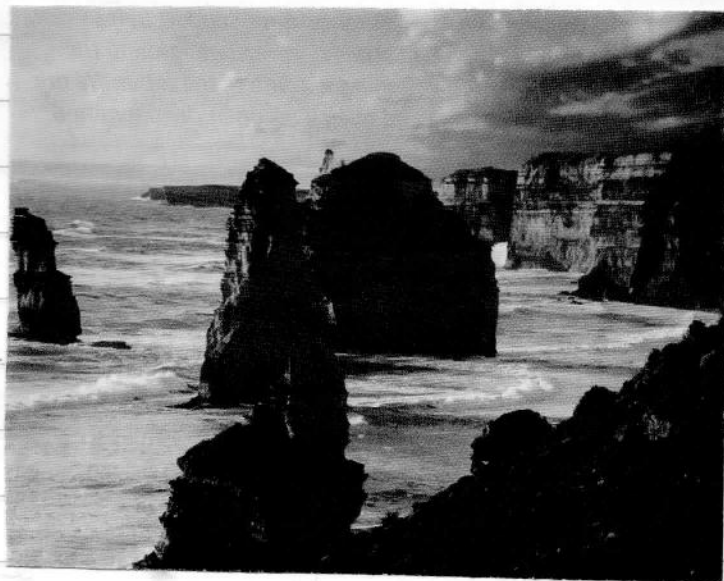

I'll bet your garden is on its way by now. Food safety is best controlled at home. I've been reading "OUR DAILY POISON" by Marie-Monique Robin as her research exposes the horrid chemical assault on our health, esp'ly since WWII. She also wrote "THE WORLD ACCORDING TO MONSANTO"

Ms. Robin grew up on a farm in France and became an investigative journalist focused on the chemical assault and GMO assault, as well as poisonous preservation and packaging corporate assault on our food and water supplies. My wife is a naturopath and we've seen all of this, before this POW nightmare for decades. The Keller World Communist Order is satanic and murderous to the core! Those who expose them sorely attacked. The AMA, BIG PHARMA, AG Chem Co's, Food production chain, bankers, corporate farmers, and others all in on it, LIES everywhere.

By now, I'm sure you've been out to net the salmon, I see, even there the bureaucrats think to make rules for the resources God made for us. The huge commercial fish take, is why men and women must have restrictions placed on their catch.

When I was young, I remember we could no longer eat fish caught in the local rivers, as the chemical pollution in the rivers poisoned all. This changed from the time I was 7 to 17. I remember when those rivers had sand bottom, not mud, and we could see the fish and the bottom. Later with recreational dams and erosion run off they became murky, muddy and suddenly bubble up around the boat - Toxic cesspool.

Our bodies 70% or more water. pollution is deadly serious. Anhydrous-ammonia turns soil to hard, crusty unworkable, as it binds all the essential minerals in the soil. Devastating.

Covid-19 allegedly on increase. Some people have died in these gulags. One cannot tell for certain, as we are kept in the dark. Been in our 7'x10' steel & concrete bunkers since 1 April. On good info, an affected DHO (Disciplinary Hearing Officer) came in this closed gulag. (3:30pm EDT).

I'm told a few days ago time served, immediate release is on the table for my relief. I'm POW in my 25th year, FRAMED for nonsense that never happened. Those responsible wanted to discredit my self and others and to silence exposure of the TRUTH. ~~my~~ Where there is smoke there is fire.

2 times per week some of us are in our 7'x10' bunker 34 hours before we have 2 hours to come thru old death row building. No air-conditioning in our bunkers. I truly thank the Lord for my little 12" fan, and clean water which I'm able to buy.

I've known some Johnsons in Iowa, all my life. My sister was married to a Johnson who played trombone in my trombone section in the band. I rode the bus with another Johnson family member, Bruce, who lived 3/4 mile from my granddad. Small world. Unless just adopted, names connect all the way back.

We have Their promise, now and forever. The narrow path following our good Shepard Jesus is clear now and forever. Hallelujah! He is our King; He is our Life!

In His service,  
rex-russell-dean

P.S. May liberty soon prevail!
