

by "The Light" 8 May 2018, Tuesday

dear brother Will,

Soooo b l e s s e d!! As I write here, I am looking at your favorite goat behind Mrs. Horns, with her four youngsters. What a family! So pleasantly surprised with the photos with you letter of the whole story, 4-20-18. This and I am able to stock up with some soups and mackerals thanks to you know what! Have your letter sharing word that your benevolence was sent to Des Moines. How can I say thank you enough? I simply pray that our LORD Jesus Christ blesses you and all there in Kansas, as well. It looks as though Spike is ready for a ride! A fresh load of hay should keep all cozy and happy with tummies full. The four seem well endowed to snuggle up and stay warm as they sleep [Smile!!].

Surely you are doing a wonderful job sharing some 30 letters every month a powerful ministry to be sure. I know that surely you are aware of the snale's pace that seems to limit my letters sharing our conversation. So glad that you too enjoy the letters and that they are a blessing for you. Certainly it is a blessing for me to share the conversation. 😊

Here the spring has been unseasonably cool and a bit wet. This has been a set back for many farmers who planted corn in the cold wet soil only to have the seeds rot, forcing them to be about a second planting as I write. In NE Iowa we always sought to have the corn planted by 10 May. It seems these folks in this neck of the woods are a bit anxious. I don't know why. They are further south than we were in Iowa and should have a long enough growing season, even after the 10 May time frame. Well, some learned a hard lesson for being anxious this year it seems.

I've always thought the goats were fun animals. We did not have any as I grew up, but we had a neighbor who had several all the while I grew up. They had many small ones that did not get much bigger than your new brewd. They were cute until one looked out to the drive and found that 3 or 4 of them were on the roof of the car. They were always affectionate and seemed to enjoy us about as much as we enjoyed them. Truly, I know why you love your herd as much as you do. 😊

I like your hat. I used to have one much like it when I was a bit younger and it saw me through a number of good days hunting pheasants, deer and the like. I was a cowboy hat kind of guy most of them time, but hunting is a different time and place.

*Take a few minutes to pause
beside the still waters of God's Word.
Drink deeply and you will find it
cool and refreshing.*

I hope that the "boys" are well on their way, after your efforts for bottle feeding them. One day soon they will all be the best!

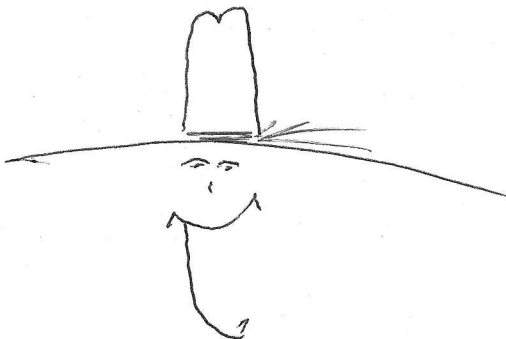

Love your sharing the adventure of having the goats growing and multiplying. I love it!

Finally!! I received Andrew Hoffman's bk. I have been reading it, starting last night. A lesson in some of the causes for our seeing the LORD's correction on this country and the world. I will comment more, as I become better informed.

I just finished reading a borrowed book, "THE JUDAS GOATS" by Michael Piper Collins. Michael has gone to be with the LORD, but he has left alot of food for thought. He was a prolific writer, wrote many articles for the American Free Press and it's predecessor, "The Spotlight" via Liberty Lobby established by Mr. Carto, a patriot who served well in WWII and Korea and truly stood as a Christian patriot. The book was a real eye opener that exposes much of the corruption that has been purposely poured out on the Christian people of the United States and elsewhere. A solid clue as to who has been behind the persecution of so many Christians over the last several decades. John 10:10 comes to mind!!

Word here was that certain fellow workers in the Kingdom of Texas have been banned from contact with men and women in these places. This USSR/NAZI type of censorship is what it has come to in America. There is an especially strong hatred for Christians and it is showing in such events. The powers of darkness hate the exposure to the "LIGHT", and no crime is too serious for them to commit it if it will silence the TRUTH. I pray that you join me in prayer for all affected.

The WORD is in total control of all, Romans 8:28, and we can be confident it is all happening just as His plan for perfection is to be.

The LORD bless you and keep you!
May you, your loved ones and all
be renewed in your faith in Him
moment by moment!

Always,

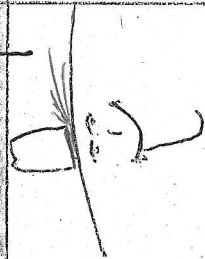

rex-russell-dena
