A friend sent this business card to me I show me with partial name and cowboy hat. Yes, I do miss my cowboy hat. I had one from the time I was 4 years old. My Meise ancestors from Lower Saxony

had cattle before my great grand father John came to Iowa and did cattle and worked the land the USA way. ~~My~~ My mother's father James Rodman had ancestors of ~~the~~ ^{the} ~~Holland~~ ^{Hollands} Netherlands who were dairy people - he spent a life-time with "horse-power" and dairy cattle. A small world. My great grand mother, a Galkmeyer came to USA when she was 3, from Westphalia/Germany. The ("Länder") Landers are scattered all across USA.

While looking for evidence of Dana's (my wife's) family at the county cemetery in Carter County, Kentucky (1993); Dana discovered a burial plot with 20 graves on a wooded hillside. They were young Landers 16 to 34 who had died in the 1860's fighting for independence of the Confederate States of America.

I later learned a young fellow John Landers, A Company, 60th Virginia, died at only age 23 as a P.O.W., at Camp Morgan (Den of Misery) at Indianapolis, Indiana. 100's of Confederate P.O.W.s died there due to lack of shelter and necessities of life.

Our son Mike (36) had a DNA test recently, Ancestry.com 79% German; 19% Scandinavian; 2% UK... interesting.

dear Betül,

Guten Tag! Thank you dear friend for your recent letter and enclosure, re Sessions v. Simaya. The article is informative — the library on computer is not up to date re "Simaya". My situation, ~~and~~ it does not appear, ~~has~~ no horse in that race. The fraud used against myself and others did not originate with reference to prior history; we had none. There are other foundational defects that give rise for our confidence that there will be relief in the not-to-distant future. Many honorable and knowledgeable people are aware and actively seeking our justice.

If people had a clear insight as to the breadth of the fraud and unlawful means being used against innocent people; making USA the No. 1 prison/concentration camp capital of the world today, the whole world would be up in arms. Truly God will not long tolerate such evil. Keep the faith, Lieb friend! Our victory is due and forthcoming!!

It is so wonderful having caring Christian sisters and brothers praying, caring and sharing as we stand with Jesus against the prince of this world. God bless you Betül and yours!! You are in my heart and prayer, as we walk this walk. Only the Word knows how many of our sisters and brothers are suffering persecution today.

You may have seen a plane like this over Nürnberg — the rot below it in "The Trumpet" magazine identified it as Deutsche air force in training. Let us hope and pray tracking is all the war birds must do.  Our prayers areil much!

As I write summer is approaching — temperatures in 70's and 80's we can tolerate — I pray there are few 90's or 100's — One can bundle up for cold, but one can not deal with too much heat. I'm in my 10th year in this old building — it is no place for fending off the heat. It was built in 1930's — can be an oven. I pray your summer days are pleasant ones.

Did you know Germans are the largest minority in the United States? I did not until I read about this statistic about 2 years ago. Because the early east coast colonies were UK, this factor is often lost in the historic accounts. We are not so far apart, at all.

Well, dear sister, and etc, I send my very best. You are in my heart and prayers each and every day. Bless you!! Surely the Lord's goodness and mercy is preaching.

with love of Christ,
your brother,
Rex - Russell - Dean

P.S. Real cowboys have "spurs" to.
