Subject: Check this out.

Here is a story to share.

On or about May 1, 2002, I got a call from the Grand Jury Foreman out of Coeur d' Alene Idaho. At this time She said that her Grand Jury had been disbanded as the six month period had ended (ended in April); and she stated that I was not indicted as she had signed a no bill. She also stated, that she was so impressed with the Testimony of Elvin Joe Swisher about how great the WaterOz mineral were, that she decided to call me and see if she could get a free sample of the Zinc and Calcium Water. I then agreed to send her some. So, I knew that there had been a Grand Jury and it was disbanded in April and that they had failed to get an Indictment. Now I fly back to Russia and elsewhere (outside of Idaho). Now when I get back to Idaho at the first of November of 2002, and then get attacked on November 22, 2002; I'm given a copy of an indictment that states that I was indicted by this same said Grand Jury on July 18th 2002 (my birthday). How can I be indicted in July of 2002, when the Grand Jury was disbanded in April of that same said year? Why was it done on my birthday? Note that they also Superseded this threats indictment as the next entry after I filed a notice of Alibi. Just a strange coincidence. Why was it sealed? They unsealed it when I came back to the US; as they knew I was overseas. Why did they hid my passport; and Swisher's Medical Records? More questions. How could this Grand Jury have all changed their minds about the minerals and got back together three months after being disbanded; when only Joe Swisher had testified that they were perfect in every way. Now they said that I'm selling drugs in interstate commerce because my labels were 10% off. Note the Mr. Swisher did the actual label testing. So, even back then I would tell people that the Indictment in my opinion was forged. It all looked suspicious. Now I go on to make said same minerals and the Ozone Machines for another 12 full years until I'm finally firebombed. So, I was indicted and really continued to do the same crimes? Again this makes no sense. Even Eniva is making a bad product and using my recommended protocols. Note I sued them and won a judgment of about 1.8 million dollars. Then my Lawyer Ben Houg stole these funds.

In this Indictment they state that I had a book called protocols. This is a book that had many disclaimers in it. It only covered things like the fact that the minerals in carrots are known to be good for your eyes and that Calcium is supposed to be good for your bones. I had a lawyer that checked all of the wording even before we used it. Note that the business continued for the full 12 years using said same booklet.

Now, they bring Swisher in to lie against me in Boise. Swisher states that the reason that I hired him to kill Judge Lodge is that Judge Lodge had ruled against me. If you read the Docket sheet the only ruling against me from Judge Lodge happened in 2003. Note that Swisher said I hired him to kill Judge Lodge in July of 2002. So, even the reason for this attempted murder was a provable lie. There is no nexus between me and this evil Judge in Boise as I had not business or other affairs in this place. Now Swisher states on the witness stand, that he never owned any laboratory and did no testing testing. All of the testimony given in Boise 100% go against the testimony that he gave up in Northern Idaho. Note that he

was actually in a coma in their VA Hospital. They had to have known that they were kidnapping and attempting to murder me. They are the real criminals. Now Mr. Swisher gives me an affidavit that states that he is a mental health expert and our relationship was that I was his mental patient. Really. He can't even tell the truth when everybody even knows he is telling lies. He really is a mental patient.

Now we have the VA stalling and not giving us Swisher's medical records. At this point in time, anybody could make a plea to President Trump about this as we can bring all of the bull to an end if they would just bring forth my Passport and Swisher's Medical Records that would now prove he was in a coma in July of 2002.

So, even now, we got all of these different people that want to follow in my footsteps and make some mineral waters, just to earn a lot of money. I guess this is because they just can not get over the fact that there is a lot of money in it. But, you would think that these rats would at least make a product that is not a fraud upon the people, even while using my protocols and reputation. Even right now I'm the only person who is screaming that the Copper is special. Note that Eniva, tried to make Copper Water and it was so toxic they got sued for hurting someone. They are truly rats. I think that Gunderson was working with the Beckler Boys over at Eniva to put me out of business. I will never stop trying to make the product that will help the sick and needy. I just don't know if I will do it here.

Blessing on you and your friends.

Dave
