Daniel Riley Responds to Whore Profiting Off Attempted Murder and Incarceration of the Innocent

Friday 08-17-18 10:30am

This is my reply to a reporter that is currently in the investigation stage of writing a book about the events at the Browns. I received an email from her requesting my cooperation to be interviewed here at the prison, among other things, without any offer of compensation for my cooperation. She claims to be writing the book from a balanced perspective, and has already cut a deal/contract with the US Marshal at the time, Stephen Monier, giving him 15% of the book revenue for his cooperation/help.

Kristen,

Have we met before? I remember meeting that weasel Margret Sangor katz, but not you. I do remember reading some of your press coverage. You come off to me as a sycophant to the government. I really do not trust you. As for that diabolical unprincipled reprobate, Stephen Monier, he is a steadfast liar. In your request for my cooperation, you offer me nothing in return. Why? Are you a hack too. As for your book, you will not be chomping on the truth with Monier's and his cohort' self-serving version of events. His fabrications can only exist in the uninformed mind. I was there on June 07, 2007 when his tools of oppression tried to murder me; and proceeded to cover-up this fact. I have documents to prove it (as well as video). I was there on July 14, 2007 when the enemy's helicopter assaulted a peaceful gathering at the Brown's property. I was there on the late evening/early morning of July 28/29, 2007 when that internal enemy of his country, Monier, plotted, and sent barbaric mercenaries to the Brown's property to indiscriminately discharge their firearms at and about the Brown's home (the Useless Leader apparently missed all this news!). I experienced what is passed-off as a "fair" trial by this

government. A trial where the government's witnesses have carte blanche to give perjured testimony; and the defense is stifled at every instance. I have evidence to back-up what I am saying.

We'll all be home soon (thanks to the use of an illegal law the enemy used, that's another story in and of itself). Then I plan on writing my own book on this head (and know many capable authors/editors to help me see it through), from the victims of an oppressive government point of view, not from the oppressor's point of view, as I see your book will be. You cannot print the truth in your book, for it would be considered "anti-government" if you did, something your worldview would not permit you to do. Your not about the truth as your past news reporting establishes. I expect your book to be based on your bold and active ambitions rather than merit. I plan on informing my readers of the truth on this matter, unequivocally, highlighting all the lies, fabrications and lawlessness of the enemy's government.

Your conception of a "balanced perspective" I believe is not what mine is. I feel as if your book will be a slanted version of events skewed to the government's take. Bernie and Joe are good people, but they were very minor players with respect to the standoff, trial, etc. I urge my fellow patriots not to cooperate with you. You will cherry pick and choose from your interviews of patriots what fits into your preconception of what you want your book to portray. Your book will probably just be another hit piece to discredit the Browns and I.

For the foregoing I just cannot bring myself to cooperate with someone of your ilk. Take Good Care.
