Rudy, I was surprised when you told me that the Bundy's are now under attack again. I want to point out to you that I predicted this before it happened. I told you, that as long as the Bundy's are using the supposed BLM Land, and the BLM is thinking that this is their land, they are going to keep attacking until such time, as the Bundys are safely behind bars or destroyed.

It is my opinion that the feds at this time are never going to leave the Bundy's alone, especially now that they are mad, and they will work with their recourses, until they can bury them in the Desert. Even if they surrender, they will continue to be attacked. They have pissed of the Satanic Jack asses from Hell!

I was very impressed with the fact that the Bundy's are fighters; and have stood up to Satin and his New World Order Demon Scheme. They won the first round. I have said in the past and no one would listen to me. I said this fight is not over, and I want to talk and help the Bundy's, and no one would help me reach them.

In my case these Cockroach Feds waited for 11 years to come back to attack me, after I quite doing my talk show.

As I knew this, I also knew that I had the argument that would finish off the BLM once and for all and prove once and for all, that the Bundy's own their Ranch. I also have all of the argument in the Legal Briefs, that I did for the Barraccini's that proves they have no criminal jurisdiction either. I would right a Brief from here to help them.

Soon, when I get release I would help them finish this fight. I want to stand with them and always have from the start of this fight. Right now they have a media machine in place that I never had. This can be used in a wise way to help us finish of the fact that they can indict a ham sandwich. All of my brief's need to be sent over to them as fast as possible.

If Bob gets out in the next few days, he has agreed to go and help them and he will work with Rudy. He is very knowledgeable about Satanic Law, and would drive them to the sea.

If I had my way I would get the help of a few Radio Shows/Hosts, (i.e. Lamb, McCormic, Drake), and a few others and then I would promote helping a few thousand good people, file Deed Poles on some of the Un-appropriated Public Lands using these Deed Pole Concepts. We just need to file a thousand Deed Poles. Now the Feds will have a whole new movement of people in their faces, and the Bundys will no longer be the Lone Ranger on the Ranch. It is my opinion that the Bundy's are in the same spot that I was in, as I was the only person making the new cure for all of these diseases, and had the 750,000 acres Valley Wells Ranch, and now the Bundys are the only people who are standing up against this De facto federal government over their 600,000 acre Ranch.

I know how to drive the evil to the sea where they belong, but someone has to listen to me. We need re enforcements for this fight.

I have a 750,000 acre Ranch and Bundy has a 600,000 Ranch. We could bring all of this to a conclusion by having these thousands of good people (we find on the talk show), each file the Deed Pole, for purposes other than being a Ranch. We have green concepts, Mining Concepts and farming concepts. This would allow us to bring in many thousands of Deed Pole Claimers/applicants, to now cover a lot of these Nevada, California, Utah and Arizona Lands. Remember the goal of these Federal Agents, is to remove all of the land from being used by the people. We also need to seize the phony Green Movement for Christ, and take it away from the Satanic Forces. We are the real Green Conservancy and we want to develop the Western States for the People Green, De jure.

We also want to put an end to the endless attacks against good and godly people. The only way to win this fight in the long run is to have an army of people, who all want to migrate out to these areas and stand as one as Claimants. This would be a non violent movement, and even their undercover Rats are welcome to join. But I would feel very sorry for one of their Rats, if they are out in the isolated area and get discovered. There is plenty of room to plant a few trees.

So, what I'm trying to say is, that we need to involve many other like minded people in a gently non violent expanded fight. It could be kind of like what Bo Grits did with his almost heaven, but we can call our Movement "Heaven". Can you imagine if we had over a 1,000 people, who have all filed these Deed Pole Claims for many different concepts? Maybe without even taking possession of the land at the start. These 1,000 Deed Pole Claimants, can just be paper pushers in the beginning, and will not be able to be persecuted. Wow, now the

Rudy Davis

United States Attorney would have to answer the whole 1,000 Deed Pole Claims, in a non criminal Statutory Venue, and she could not do this. This would take the Bullzi off of the Bundys forever.

Now once the group wins, the prize would be a whole and real new De jure, territory of the United States of America and a new De jure Nevada Republic, that would now appear as a legal De jure island of territory, right in the middle of the current De facto Corporate B.S. Now, this new Island of De jure, could slowly be pushed under agenda, to cover the entire Country back to Jesus Christ; as we undo the New World Order Scheme. We would have the wind of Jesus at our backs, as we take back and conquer our birthright back, and remove the all Capital Names from all of our Documents; and even put our Christian names back on our Church Records.

It is my opinion, that their is no way to win this battle in the long run, unless you involve many others and the only way you can involve others, is to give out some thing of value, that will promote a little bit of greed. A little bit of Greed is ok and it is what is needed to get everybody interested. We need a Coop. Remember that reason that Communism failed is because no one had any reason to be ambitious. I want my 750,000 acre Valley Wells Ranch to now be divided up into a thousand little farms. This can be promoted on all of these talk different shows. It would only cost about \$5.00 to file these Deed Pole Claims in the local County Recorders Office. So, as you can see I'm ready to start a new fight for freedom. We can have our De jure Coop, do the paper work from free as we ask for Donations to save mother earth from Global Warming. We can then fund our actual Freedom from this evil thing called the New World Order. It needs to start somewhere and it started here in my heart and understanding of the true law of God. We have to have a vehicle that can now be mounted and ridden to reach our goals, and we need many to participate in the adventure, or all will be lost; as no man is an island; men of the same mind need to now stand together and share a common bond. Surrender is now not an option for any of us, especially the Bundy's, as they have now stood up against the real Satanic forces, and they are doomed if they don't keep fighting. This is my prediction and I will stick with it. I will fight with the Bundys and give God the Glory.

We now need to unite and bring back our Republican Form of Government in the name of Jesus Christ Amen.
God Bless the Bundy's.
David Roland; Hinkson.
