

Dear

Thank you so much for taking an interest in my life. You have caught me in a season where much is happening. So I hope I do not overwhelm you with this substantial update. By now it is known that I was convicted on all 4 counts of bankruptcy fraud. This did not shock me. What shocked me was how poised God made me during my second affliction of injustice I have suffered. It is quite a different experience the second time around. Still I learn more tricks of depravity the government is capable of, having been better prepared from my first experience to annul or frustrate tricks already suffered. But they are masters of the game of deceit and we who love truth are their favorite targets and easiest prey. Their system is a fraud that rewards fraud so when the false accusations are leveled our integrity has a knee-jerk reaction to defend. The worst possible thing that can be done. I know I am talking over the heads of many but anyone who has experienced this machine knows that our defense is what lends credibility to the false claim. The liar knows he is lying, their victim knows they are lying, but it is the public via media, educators, self-authenticating government, and jurors that don't know the truth and are too bogged down by years of propaganda and ignorance to see the truth in the lies. They presume by the defense and the government's overstated reputation that is far from reality there is a balanced argument of substance. The healthy mistrust of government and the worst in human nature has been amputated from modern culture. Evil is now a myth or subdued plot of drama not plausible for our institutions. No man is innocent until proven guilty, he has a duty to overcome the lie with irrefutable truth under any disadvantage regardless of promises to the contrary. This is a great expense that only few rich can afford. This is why a disparity of justice appears. For me the trial is a much bigger stage than a forum of justice and injustice. The throne of Christ settles that balance perfectly. I may never see justice in this lifetime though in Christ it is highly probable. Victory is a justified expectation. Every child knows Christ always wins. Where I think it touches me is where revelation came to Job. God is far more than the perfect Judge and dispenser of mercy which seem contrary but are not mutually exclusive. When Job a righteous man tried to wrestle with the irreconcilable suffering that came upon him with only his limited knowledge of good and evil he could not be comforted. I would be like Job in a miserable state if my hopes and prayers were limited to a just outcome. How did God awaken Job to the new reality of Himself and finally bring comfort? He did not reason with Job on moral, ethics, or justice. No He revealed Himself as Creator. "Where were you when...?" This is not a unique revelation to Job. We all need to go here. 10 spies saw themselves as grasshoppers, 2 as servants of a Creator. 40,000 knock-kneed men on the cliffs while David was aware of His Creator and advancing on the giant. Can the ill really accept a promised healing through Christ without knowing the Word as Creator? We need to put away our fears of dread dictated by presumptions of experience and realize there are no barriers for creation. Any void no matter how dark can be obliterated by the words "Let there be light". I am in the pursuit of justice and doing all my hands have been trained to do but my answer is not coming from my Holy Judge it is coming from my Creator. I am not really sequestered to the battle of good and evil like some tug-of-war awaiting the results. No I am merely suffering the torments any clay would suffer in the hands of the potter. I am not in peril. I am being fashioned for Holy service. Like all the instruments of the temple said "holiness to the Lord" on them. This is called sanctification and is a birthright of being well loved. Phony wicked men acting as judges and ignoble men acting as lying prosecutors think office and tin badges sanctify but it is an incredible counterfeit. God created the offices, the nation, and the authority. The government is upon His shoulders. Misuse and prodigal irresponsibility will have to come to its senses one day. They have yet to meet their Judge. How can a creature ever defend against their Creator? My hope is justified and that is superior to justice.

Stephen Sherak who was my friend helping me with these World Court procedures blamed his hostage actions toward my documents as a fear byproduct of being threatened by the government. I cannot argue the wisdom of his actions because I never make choices from fear. The result is that regardless of his motives he has now been arrested in New York on new charges unrelated to our business at least on the surface, and is no longer a source of help for me poor or otherwise. Going directly to the Judge was always the best option and yet for years now no one has been able to link me to her and left me helplessly dependent on unreliable. The new address and Letter Rogatory are my best opportunity I had to date. If you want to pray this connection being real could be a real life saver. If the judgment is confirmed before sentence there will be no sentence or conviction. If not my recommended sentence of 16 months will most likely be upped to 3-5 years added

to my current sentence. My contempt for their crimes of injustice is deemed irreverence and harshly punished. Not a prophecy just experience talking.

I have enclosed copies of recent actions I am taking. I have found a new address for Judge Donoghue of the World Court and hope my letter will reach her. I have also sent a Letter Rogatory through the State Department which she will receive. Hopefully this will net me the irrefutable evidence of my innocence. I also sent a Motion for Acquittal and New Trial which won't get granted by a judge who I think is part of the cover-up of these secret prisons but will become open sores of embarrassment when the World Court judgment is confirmed. In fact all 5 court actions which have intentionally steered me to this conviction by the deprivation of the power of the court for discovery because such discovery would expose their secret criminal enterprise of these prisons. Lastly I also sent a letter to Senator Corey Booker to get a copy of the law I relied upon but they want to pretend does not exist. The Letter Rogatory(s) for the banks have certified mailing numbers on them. Could you please go to the USPS webpage and print off the delivery confirmations for me and mail them in with your next writing? This way I can follow-up with the State Department if I have to.

I do not share this with you for sympathies or pity. Agony is also associated with bliss. However, we can all borrow and lend our experience in faith which strengthens the body of believers. This is why I share. I hope I did not tax your "good listener" status too much. I will stay in touch until my captors choose to retaliate against me further by blocking another benign contact. I fondly remember the kindness shown to me by all. Be blessed and stay true to the Truth we all know died and rose again to give us this abundant life.

October 12, 2018

In Christ,

Kurt Johnson

THE HONORABLE JUDGE JOAN E. DONOGHUE
INTERNATIONAL COURT OF JUSTICE
760 UNITED NATIONS PLZ.
NEW YORK, NY 10017

Re: Need of verification

Dear Judge Donoghue;

I have enclosed a copy of the Letter Rogatory that I have sent to you through diplomatic channels. I have been unable to reach you for over a year to my own detriment. I was recently convicted of bankruptcy fraud for attempting to enforce a right of claim I obtained through a judgment you entered on 1-14-16. As part of that judgment I claimed I am held in a secret and illegal prison. This remains true only the crimes committed are far worse than I listed. My conviction is manufactured by obstruction of justice, threats against witnesses, theft of exculpatory evidence, and censorship to prevent any oversight or accountability. The set the narrative for trial that your judgment does not exist. Blocked me from all possible defenses and of course got their fraudulent conviction. My need to hear from you in the most simple affirmation is now a matter of justice. Even if you intend a formal response to the Letter Rogatory a terse but official statement on letterhead that you did enter a judgment for Executor-kurt-F.-Johnson on 1-14-16 would be enough to have my motions for Judgment of Acquittal and New Trial already filed to be seriously considered. Would you kindly send this letter to me at the above address and also copy the court directly at 301 W. Main St., Benton, IL 62812 since there is a high likelihood that my captors will never deliver your letter to me? If no such judgment exist I would be just as interested in this truth handled the same way. Then I could accept my punishment as just and argue for mitigation. Thank you for your kind consideration of this matter.

October 5, 2018

Sincerely,

Executor-Kurt-F.-Johnson

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF ILLINOIS

UNITED STATES OF AMERICA,
Plaintiff,

Case No.: 18-cr-40043-JPG

RULE 33 NEW TRIAL

V.

KURT F. JOHNSON,
Defendant.

The dramatic part of the trial appeared fair enough. However, it was all too scripted in unfairness and inequities that the drama was as far removed as fiction is to reality. For real life parties and real life consequences this court allowed, and could have very well intended for, a foundation of impossibility to be laid. To us Pro Se as a scapegoat is convenient but no attorney could of ever been placed with such disadvantages and been effective or deemed ready for trial. First off the attorney would not have been kept in the dark as to scheduling or rulings and non-rulings from the court as JOHNSON was. An attorney would not have been kept in the dark by the government on all informal discovery requests. An attorney would have had bare minimum access to phone or email to conduct discovery an interview witnesses or potential witnesses. An attorney would not have learned on 9-14-18 that none of the 17(c) subpoenas would be issued except for Nell Leffel who was of minimal relevance and a government's witness. An attorney wouldn't have learned the day of trial that none of the subpoenas were served except upon an arrested witness. An attorney would have had some access to minimal inestigative tools to help locate witness-

es or evidence. An attorney would not have learned that the Marshals did not attempt to serve Judge Donoghue as a New York resident but rather in her foreign office until the day after trial. The Letter Rogatory only becoming necessary after this revelation. A non-attorney will necessarily have some disadvantages from not being represented but this court made no efforts to mitigate them, but instead exacerbated them with its unnecessarily rushed calendar and discovery foreclosures. JOHNSON couldn't even obtain basic organization tools like post-its and file folders to ready for trial. Discovery from the government was meted out on last minute basis with an already truncated limitation of access to the discovery reading computer. Time for fair and equitable preparation was stolen at every given opportunity in order to corral the defense into an untenable and unwinnable trial. A trial victory that hung precariously on the ability to deny the existence of the law (treaty) relied upon which fully sets out the procedure followed and the jurisdiction given, and the existence of the judgment itself. Both of which with fair access to time and discovery could have been addressed definitively. The two attached post-trial letters to Judge Donoghue (attachment A) and Senator Corey Booker (attachment B) were pre-trial discovery attempts that were simple and yet precluded by the government's trial tactics and this court's indifference to the consequential inequities developing. A little communication and the opportunity to complete it would have netted the treaty easy enough even if the Senator does not mail it. Enough information would have been gained to obtain the scanned and rejected copy from CTU and Mrs. Hill through mail records. The outcome of the trial and narrative would have been very different if just the treaty was introduced as a law governing the procedure executed by JOHNSON. Foreclosing the discovery to the Library of Congress further prevented any mitigation of this unfair advantage of presumption, concealments, and deceit intended by the government's trial tactics. Without any outside communications from your secret sequestering

prison there was no way to confirm the dates of and parties to the FBI's visit to Stephen Sherak and whether the lack of 302 is an intentional Brady violation or not. It was impossible to speak with exculpatory witnesses to even learn if they were contacted by the FBI as part of the investigation and withheld or purposefully not contacted.

The court can listen to just a few excerpts from recorded calls and learn that there is far more substance to the facts of this case than the minimalist evidence the government offered and defense was precluded from expanding. The Marion County Jail phone recordings are reliable and were not offered into evidence because the witness Stephen Sherak was not available to testify because of fear induced by threats from the government. These recordings could have been introduced by the hearsay exceptions of Rule 804 if defense had timely information with discovery tools to understand the nature of Sherak's refusal to testify before the second half of the trial. Call number 67283076 10:08 - 12:38 mentions FBI visit and interview. Further information about visits on 67287682 8:07 - 9:50 and 12:41 - 13:20. Threats to witness and obstruction by withholding evidence 67292408 9:20 - 12:54 (outrageous government conduct). All of this was substantive pretrial discovery and remained undeveloped and unverified while JOHNSON was denied even bare minimums of communication with complete isolation from the outside world. Even communication with the court and the government were controlled to maximize all disadvantages and by the so-called victims which if evidence was not concealed would reveal were conspirators. The whole thing is conspiratorial, conflicted, concealing, and stinks to the highest heavens.

CONCLUSION

A new trial is warranted where a fair presentation of available evidence is afforded both parties. The so-called victims had no urgent risk with the bankruptcies sealed. The government would not have been prejudiced by the trial

lingering past Mr. Quinley's transfer. There was still plenty of time on the speedy trial clock and waivers available. Truth matters and the truth never got its day in court or the due process of notice an opportunity to be heard. A very different trial would have occurred and most likely a very different outcome if the treaty, the judgment, the conditions of confinement incorporated with the outrageous government conduct were fairly developed and presented to the jury, and witnesses felt safe to share their testimony.

LETTER ROGATORY

Executor-Kurt-F.-Johnson seeks to confirm information and belief by first hand knowledge your bank would possess if the facts contained herein are true or false. The veracity of these facts are an essential and material matter for various disputes made in actions 15-cv-00525-NJR, 17-cv-1010-DRH, 18-bk-40014, 40015-LKG, and 18-cr-40043-JPG out of the Southern District Courts of Illinois. The basis of dispute is whether a World Court judgment issued by Judge Joan E. Donoghue on 1-14-16 known as IWC-011416-A862234-003 exists. The Executor by his custody conditions has been precluded from presenting any evidence conclusively by the obstructions of parties involved and therefore your response is critical to the settlement of disputes. Executor is informed and believes that your bank made an offer as an interested party in the purchase of this World Court judgment during the second half of 2016 by and through an agent named Jacqueline Sherak of Abu Dhabi Commercial Bank and an employee named Heiko Lotz for just under \$15 Billion. This being a very sizeable and significant sum should have created some documentary evidence of its existence. An escrow was believed opened with an initial deposit of \$773 Million. This escrow was later closed and the funds returned to your bank after your bank's request to withdraw for cash reserve problems that recently developed after the initial deposit. Jacqueline Sherak was paid \$8 Thousand for expenses at the close of escrow. All this was done in Germany.

Executor is seeking any documentation that would prove the veracity of this offer and the due diligence that your bank performed in the process of making the offer. This would include any emails, notes, memos, deposit receipts, copy of the expense check or wire paid to Ms. Sherak. Any reports or contracts created for the offer. Executor is seeking this information informally as a response to this letter on official letterhead. If you do not wish to respond to this informal request could you inform Executor if your bank is willing to submit to the formal process of subpoena through the UNITED STATES federal rules of civil and/or criminal discovery procedures to obtain this information? If you prefer formal process could you supply the name and contact information of the person designated to receive such service of process for your bank. Informal response can be made to Executor through the Department of State. Executor wishes to thank your bank for its kind consideration of this matter and the opportunity to confirm the facts believed and of vital importance. If for comfort the bank would like to respond directly to the Court their address is 301 W. Main St., Benton, IL 62812 (18-cr-40043-JPG).

Respectfully submitted,

Executor-Kurt-F.-Johnson

WASHINGTON, DC 20520

7017 1450 0000 0834 9566

TO: ABU DHABI COMMERCIAL BANK
SHK ZAYED ST.
P.O. BOX 939, ABU DHABI
UNITED ARAB EMIRATES
971 2 6962222

LETTER ROGATORY

Executor-Kurt-F.-Johnson on behalf of the defendant/petitioner KURT F. JOHNSON believes that ABU DHABI COMMERCIAL BANK (ADCB) of the foreign jurisdiction of UNITED ARAB EMIRATES has first hand knowledge as to the authenticity of the attached bank offer. This knowledge being essential and material in various actions in the Southern District Courts of Illinois; 15-cv-00525-NJR, 17-cv-1010-DRH, 18-bk-40014, 40015-LKG, and 18-cr-40043-JPG.

Executor seeks to obtain through an informal response any and all documents like emails, notes, escrow or potential escrow instructions or the like that would confirm or verify that the attached bank offer was legitimate at the time it was made and that it was for a purchase of Executor-Kurt-F.-Johnson's interest in a World Court judgment. If it is not legitimate and the offer sheet presented via email was/is a fraud that the bank would make an official statement as to that fact. If the bank is not willing to provide this information on an informal basis on bank letterhead Executor would like to know if the bank is willing to submit itself to the formal process of subpoena according to the UNITED STATES federal rules of civil and/or criminal discovery procedures? If the bank is willing to submit to formal process would it please name a specific party to be served who can speak with first hand knowledge of this particular offer?

Executor is aware that Jacqueline Sherak sister to Stephen Sherak to whom this offer was transmitted is September of 2017 is an employee of this bank. Could this Letter Rogatory also be brought to her attention if it is a fraud?

Executor would like to thank the bank for it's kind consideration and attention to this matter. The veracity of this offer will go a long way toward the settlement of disputes presented in the above actions. Further, if the bank is still interested in the product contracted for Executor is willing to renegotiate and to work with your employee Jacqueline Sherak is direct contact can be arranged under the current custody situation.

Respectfully submitted,

7017 1450 0000 0834 9559

TO: THE HONORABLE JUDGE JOAN E. DONOGHUE
INTERNATIONAL COURT OF JUSTICE (WORLD COURT)
UNITED NATIONS BUILDING
405 E. 42nd ST.
NEW YORK, NY 10017

LETTER ROGATORY

Executor-Kurt-F.-Johnson on behalf of defendant/petitioner KURT F. JOHNSON believes that the Honorable Judge Joan E. Donoghue of the foreign jurisdiction of the United Nations World Court also known as the International Court of Justice has first hand knowledge of facts, documents, and events that are materially conclusive to facts in dispute in the following actions 15-cv-00525-NJR, 17-cv-1010-DRH, 18-bk-40014-LKG, 18-bk-40015-LKG, and 18-cr-40043-JPG all out of the Southern District of Illinois.

Executor seeks to obtain any an all testimonial, circumstantial, or direct evidence that would confirm the veracity of believed facts stated herein. Executor has sought this information for years and has been unsuccessful in any informal attempts at direct contact, (See Attachment A & A1 a 10th letter return) and even formal processes have proven inadequate to reach the Judge. (See Attachment B USM-285 Marshal process form) Executor has no adequate remedy except this LETTER ROGATORY through the channels of diplomacy by which to solicit and procure the evidence sought. Executor wishes to know if the Honorable Judge Joan E. Donoghue will provide this information informally in response to this request or if she will subject herself to the formal process of the United States Federal District Court. If the evidence can be supplied informally but the expense is too great Executor would like an itemized invoice returned with the response that lists the items available and the costs associated with their production.

BELIEVED FACTS

In the last quarter of 2015 two International Administrative Private Remedy Processes subject of a treat the World Court has original jurisdiction over was submitted by agent Jacqueline Sherak to a Duly Appointed Administrative Hearing officer from the netherland named Jonatan Helmsford to test for treat compliance. Having passed this scrutiny was referred to the World Court for Judicial Review. The honorable Judge Joan E. Donoghue was appointed. On Jan. 14, 2016 a hearing was conducted. At this hearing Executor Johnson and agent Sherak were represented by Attorney Elliot Weisner of New Jersey and the Department of Homeland Security appeared through Andrew Feirstein. The larger of the two as to relief sought was granted an action number IWC-011416-A862234-003 and the smaller one is currently unknown. Only the larger one was opposed. Mr. Feirstein tendered a Motion for Abatement an Injunction after the Court granted judgment on behalf of Executor. Abatement hearing was set for Feb. 19, 2016 and the injunction was granted to enjoin enforcement until determinations of Abatement.

The Judge Joan E. Donoghue using the Executor's Administrative Judgment (See Attachment C 9 pgs.) created a 9 question questionnaire for developing the record for Abatement. This questionnaire was served upon respondents at the direction of the Court. Having only received bad faith responses to this questionnaire the Court recalled its injunction, cancelled the Abatement Hearing, and made the judgments final on Feb. 11, 2016. The judgment was granted under the authority of the International Financial Transaction Grievance and Corporate Resolutions Treaty (1972) Charter # 8971-A Paragraph 6, Subsection 2, Article 3 (Corporate Abuse Remedy) and Judicial & Extrajudicial Documents in Civil & Commercial matters F.R.Cv.P. 4(d)3. Some time in May-June Mr. Feirstein filed an appeal of this large judgment with a substantial supply of supporting exhibits. The appeal was affirmed on Sept. 28, 2016 by 3 judge panel out of the Netherlands. (names currently unknown)

Later in the year on 12-16-16 four more Administrative processes were presented to the Court having been referred by a hearing officer out of Capri. (name unknown) Judgment was granted on three and one was rejected. The Executor and Agent were represented by an Attorney Tom (lastname unknown) before another Judge currently unknown. None of these processes were opposed. On 6-28-17 in the Netherlands Tom was unable to rehabilitate the rejected process and final unappealable judgment was entered on the remaining three. On Feb. 8, 2018 all parties/agents not Nell Leffel and Executor-Kurt-F.-Johnson had their names removed and all five judgments were recertified with these redactions. This was handled by a Paul Alderidge in unknown capacity and Janine Fuursen as an under secretary.

Executor seeks first and foremost as direct evidence certified copies of all 5 judgments including the affirmation on appeal. Any emails, motions, process, documents, memos, or notes that circumstantially prove the believed facts are accurate. Any statements that would speak to the veracity of believed facts, and if these statements would be the same under oath. Executor would like a complete record of all 5 proceedings but makes it clear that as an evidentiary matter it is just the one proceeding before Judge Joan E. Donoghue on Jan. 14, 2016 that will settle the disputes of the five Illinois proceeding. At the very least to provide contact information where the information could be obtained through direct contact informall or through service of process.

Plaintiff,

RULE 29 JUDGMENT OF ACQUITTAL

V.

KURT F. JOHNSON,

Defendant.

_____ /

The defense seeks a Judgment of Acquittal in order to correct the complete miscarriage of justice that resulted from the mockeries of due process that culminated in an unfair trial and baseless conviction. The judgment of acquittal is timely filed with the verdict entered on Wednesday 9-26-18. The acquittal is a righteous choice and far less dangerous to society as to risk than an improper conviction. The judge stands as the 13th juror and is the last bastion and bulwark of protection against the abuses of the self-authenticating government wielding the sword of criminal sanctions against the accused. The acquittal can also correct and rescue the court from its own error of adopting the presumptions of the government and its cooperation with the trial tactics that had the sole purpose of disadvantaging the defense with an impossible calendar for discovery of the truth and a convenient calendar to advance a false and misleading theory to prevent any rebuttal, and for Quinley to finish before his transfer.

SUFFICIENCY OF THE EVIDENCE

The material fact that conclusively settles this indictment is the existence or non-existence of the World Court judgment. That fact was not conclusive-

ly resolved in the trial. All the witnesses whether credible or not only offered opinions and beliefs. Not one offered conclusive evidence of the judgment or non-judgment either prosecution or defense. The defense was precluded from doing so by the trial tactics of the government and the unfair discovery exasperated by the rush to trial by the court. The government had no interest in the truth because they had their narrative and felt that they could gain a conviction with circumstantial evidence they knew they could protect from rebuttal. By doing so Life, Liberty, and property was seized on the credibility of a webpage (non-contextual_ and an unexhausted list of treaties. Really? The FBI can't interview Judge Donoghue; the trial can't wait until she is contacted to speak conclusively on the matter, the banks Deutsche and ADCB can't be reached to authenticate the legitimacy of their offers to purchase interest in World Court judgments? The government can't find the party who represented them in the World Court proceedings? Since when can the government take one position in one court and a contrary position in another Court? Isn't that a fraud upon this court when they knew or should have known the existence of the judgment and chose to conceal that fact by omission from the court, the jury, and the defense? All these detailed facts do not get tested for their veracity only sidestepped by smoke and mirrors. This is not a judicial function but a political hack job to protect a secret prison-continuing criminal enterprise-employees-and the sequestering of the defense away from any discovery vehicle for verification. Truth matters in reality and justice. Why is it avoided and substituted for a suspicious, speculative, and presumptive narrative with no basis in fact, only belief? Only the non-existence of the World Court judgment could validate this theory and that fact was not offered into evidence. Only the lack of proof of its existence because proving it, which was possible, was made impossible by the government's trial tactics working in conjunction with the court's ridiculous mad dash calendar. Facts didn't resolve the dispute. A trial that encouraged and allowed a self-authenticating void or vacuum without facts

was made an alternative for injustice. This is a complete reverse of due process in that guilt is presumed and any proof to the contrary is intentionally withheld or obstructed procedurally. The court can tell by the subpoenas sought and the Letter Rogatory that the defense has no fear of obtaining the conclusive answer to the factual dispute. Why does the court and the government? Why is a webpage and list of treaties sufficient? Because guilt was already presumed. Or perhaps they already know of the judgment's existence and for political reasons feel obligated to prevent the defense from confirming this fact. All the conditions of confinement are ideal for this tactic of obstruction, censorship, and concealment. Even if it is just to protect their beliefs it is still an unfair advantage at the expense of due process.

MERGER

An acquittal is necessary at a bare minimum for half the charges because of the merger issue. This is not a duplicity or multiplicity issue. It is distinct and not even subject to the Blockburger Test. Bankruptcy fraud and false oaths are conjoined twins with only one heart of bankruptcy fraud. You cannot separate them without killing half. It is impossible to commit bankruptcy fraud without a false oath and every false oath is an act of bankruptcy fraud. The scheme of the bankruptcy fraud being a separate element for the Blockburger Test can never be reached because every scheme necessarily includes a false oath. When it is impossible to separate two offenses from a merged act Congress identifying them as distinct can only speak to a charging option and not a stacking option of double punishment. Double jeopardy precludes Congress from dissecting this fine a frog hair as anything more than a mental exercise since the split is factually and legally impossible in reality. The merger is in more than the inseparable act(s) but in any proper statutory construction interpretation "in relation to" of each statute combines the act(s) in function and purpose.

TITLE 18

The court cannot confer jurisdiction upon itself and the executive cannot exert police power beyond legislation; only congress can legislate. In this action two statute used to provide subject matter jurisdiction and executive police authority was part of Title 18 that was never legislated into existence in 1948. Though these particular statutes were adopted by later amendments there is no Constitutional provision by which you can bypass limited enumerated powers by later amendment. A non-legislated foundation is not cured by a proper amendment. Of course proper is used merely in the appearance because it could never be proper in substance. The House passed a version of Title 18 and the Senate passed a version but neither passed on the same version as required by law. It is not the will to act that converts a bill into law but a formalized and rigid procedure. That did not occur in 1948 and so 18 U.S.C. §§ 152(3) & 157 are not laws. They confer no jurisdiction upon the court, they authorized no police power, they provide no guidance to the petite jury, give nothing for the grand jury to consider, and provide no notice in due process of any prohibition or offense to defend to the accused. Due process cannot be initiated until a statutory calim confiers a right in a subject matter forum. Without a right there can be no wrong. The political ramifications of such a blunder and irresponsible cover-up by congress, the courts, and the executive is not a consideration before this court. One accused has been put to trial without any legal authority to do so. Acquittal is an appropriate remedy for this error. this error is not political factually but became judicial once process was substituted for due process.

OUTRAGEOUS GOVERNMENT CONDUCT

It was very convenient for this court to prevent a trial relevant to the conditions of confinement if not complicit. This government at all three branches has no regard for the person of law, our Creator, Jesus the Christ. What a sham and a shame truth does not matter, only the appearance of a thing. God

is not fooled and neither are His children. It may be easy to dupe 12 jurors you have educated into ignorance and propropagandized to defraud them of their power and God given rights. But a verdict obtained through fraud and deceit is not righteous or conclusive. It is merely one more condemnation in the parade of outrageous government conduct. Setting aside the false claims that incarcerated innocence the first time, once, apparently was not enough. Once could be an error but twice? Two is the number for witness and now the testimony of corruption is complete. This machine of injustice was engineered. JOHNSON was placed in your secret prison which was presented to Congress as a program needed in the fight against muslim terrorism. What a lie! Mr. True testified it is not a program nor is it just for terrorist. Congress doesn't care about the lie because they have a popular narrative of propaganda "the war on terror" to cover their sins. The executive has it's FBI and DOJ to steer their investigations to any theory because truth is no longer their objective. They only use police power to quell dissent or crush opposition. With such hubris that they have no fear or respect for the office of President, rule of law, or the lives they destroy. Even though JOHNSON did obtain a judgment from the World Court that they know to be a true fact they have lied and defrauded the court in every procedure opened by JOHNSON. The judiciary in this Southern District is not unbiased. They have joined in the outrageous government agenda of concealment at any cost. Herndon refused to have the government answer in 17-cv-1010-DRH. Rosenstengal did not defend the court's independence when she allowed this secret prison's staff denial of access to the courts by their confiscation of civil complaint in 15-cv-00525-NJR. Grandy intentionally adopted the government's fraud and prevented access for JOHNSON to the vehicles of discovery that would expose the government's fraud and reveal the truth of a creditor's right in 18-bk-40014, 40015-LKG. On appeal Rosenstengal get's her second bite at the apple with her cover for outrageous government conduct in 18-cv-0783-NJR.

Not to be outdone this court used its mad dash calendar to deny JOHNSON a fair use of the discovery which would have verified the World Court judgment and innocence. It worked complicitly with the government to assure truth was concealed, and the secret political pet of these nazi-style prisons in your circuit remain a functioning secret. The FBI in its investigation conducted no interviews with exculpatory witnesses they knew to be relevant. Months before they, along with others, the IRS, the Secret Service, and the Postal Inspector threatened Stephen Sherak and family which prevented him from providing JOHNSON with a copy of the applicable treaty and the judgment. It further forced him to get the judgment recertified on 2-8-18 with all his family names redacted for fear of retaliation. This court narrowed by its calendar and subpoenas defense's case down to Stephen Sherak who for fear refused to testify. At every turn and every opportunity the government has used the power of force and corruption to conceal the one decisive piece of evidence that exposes their secrets and frauds to public scrutiny and no branch is innocent. Fortunately this judgment is not a product of this government, which corruption would have prevented. It is an independent fact of reality uncontrolled by this self-authenticating corrupt machine of wicked hearts, as is the voracious efforts of obstruction and concealment. This court already knew the game it entered. Now it knows the defense knows the game. What it doesn't know is all the cards in play. Will it wager all on the agenda of fraud or distance itself, make a small showing of plausible deniability, and fold to a superior hand? History is not written by men as you presume it is only written about men. What will be the report about this court when the judgment is revealed? Five times now the judiciary which was enumerated as a vehicle of redress outrageous government conduct has purposefully prevented JOHNSON from using its power to conclusively prove the allegations made of a tyrannical government and handed the government stolen victories to use as precedent. All self-authenticating fraud, all stand before the Way, the Truth, the Life with no hope to avoid hell's damnation kind of

fraud. A soul for a paycheck and a tin badge. What a cheap bargain to maintain such a frivolous and temporary fraud of secret lawless prisons. You do not rob JOHNSON of truth only yourselves. You do not condemn innocence only yourselves. You do not get to change right to wrong, you only gained the sinful knowledge of good and evil whereby you delude yourselves that your decrees have any force and effect. Truth, righteousness, morals, and ethic are transcendent to pea-brains and wretched souls which can be borrowed but never stolen.

CONCLUSION

This is your last exit from the Southbound Train before the truth is conclusively revealed. You have good cause to acquit and more personal knowledge of facts than can be touched on in this brief writing. Do what is just and right for your own soul. JOHNSON is not begging for self, just for truth. A truth that will set both of us free. JOHNSON believes that man created in the image of God has an intrinsic wealth too valuable for these cheap tricks. It's never too late to repent while you have breath. You let my mother nag me, which was very kind. It has been 6 years. I owe you this favor.

Re: Needed Mailing of law

Dear Senator Booker;

I was born in Trenton, NJ on 11-19-62. I could use your help. I was in the CMU with Stephen Sherak until his release and I remain here. In 2016 he told me you mailed in a copy of the International Financial Transactions Grievance and Corporate Resolution Treaty. I do not know if this is the correct name but the treaty sought in substance was an International Private Administrative Procedures Treaty passed in 1972 and amended in 1998 by President Clinton. The one you mailed in was rejected and never delivered because you repackaged the Library of Congress envelope in your own. A remailing they won't accept even for a Senator. I need you to mail in a copy of the treaty directly from you. I have been recently (9-26-18) convicted of bankruptcy fraud because I could not produce this law I relied upon for my acts and they presumed it didn't exist. Receiving this would help me get a motion for a new trial granted and materially speak to my actual innocence. Mr. Sherak said he would send me a copy but with his recent troubles I can no longer hold out hope for this. My sentencing is 1-3-19 so a speedy response would mean the world to me. Thank you so much.
