Subject: My habeas Was Denied

2/10/2019

Dear William,

Greetings! Just a quick note to let you know that the court denied my habeas a few days ago -- actually on January 29, 2019 which I only discovered a few days ago -- and I am now working on a Rule 59(e) motion in an effort to compel the court to acknowledge the facts and apply the correct law, which it clearly did not do. From the face of the ruling, it appears to me that the political forces behind the scene (and that have always hidden there in the shadows) has applied the same pressure as always. Again, as always before, the court ignored its mandatory duty to hold a hearing on the facts in dispute or even the facts virtually admitted by the government. Unfortunately, I now have a huge burden to get the Rule 59(e) motion in, which permits only 28 days from the date the judgment is filed, and I didn't discover until February 7, 2019. Nearly half my time is gone and the conditions here to prepare such motions (and the like) makes the task much more difficult. Nonetheless, I struggle on for justice in the corrupt system. Will you please let Rudy & Erin know for me, so those concerned may be informed? And please give them my greetings. God bless you.... Yorie
