HERE TO ETERNITY:

From here to Eternity,
What man does;
What man sees;
A man is where??? ---
He wants to be!

Your mind, soul and Spirit are where you choose them to be. You, alone, determine whether you are enslaved or free. No other man has jurisdiction over your choices unless you allow it to be. You are a sovereign by design because you were made in the Image of the Creator, God; the ultimate Sovereign. HOLY BIBLE, Genesis, 1:26, 9:1-2. The United States Supreme Court ruled of this world that "The sovereign, when traced to its source, must be found in the man". ALDEN v MAINE, 527 US 706, 785 (1999). This is a Natural Right; the Right to choose.

In The Wizard of Oz: the Cowardly Lion, Scarecrow and Tin Man are the example of a gutless, ignorant and spiritually-lost people who had put themselves in a box of their own making to limit their existence. Someone these three (3) persons that they lacked courage, a mind and heart. An obstructionist had limited the existence of these three with foolishness in the Public Fool System and public propaganda of the Ultra-Left.

A waiver of a right is "an intentional relinquishment or abandonment of" that right. JOHNSON v ZERBST, 304 US 458, 464 (1938). Dorothy and the Ruby Slippers are the example that a person must voluntarily give-up (waive) personal sovereignty because it could not be forcefully taken by the Wicked Witch. No one can make your choices unless you allow them to do so. Dorothy still had a free mind, soul and spirit despite the physical imprisonment. It's your choice to overcome the obstructionists.

"Walk with wise men and you will become wise, but be a companion of fools and you will become a fool". HOLY BIBLE, Proverbs 13:20. A young man once made fun of a handicapped man's speech impediment. After mimicking this impediment for a time, the young man found he had developed the same speech impediment and could not get rid of it. The young man had done this because he was party to a crowd of fools who got joy out of ridiculing the handicapped man. By associating with and acting-out foolishly, the young man had become a bigger fool than those with whom he associated. It's your choice; to fool or not to be.

Pride is the downfall of man. HOLY BIBLE, Proverbs 16:18-19. The foolish young man had too much pride to tell his associates that they should have helped the handicapped man with his speech problem. With a small amount of compassion, he may have helped the handicapped man learn to speak properly. The young man did not have the courage to override obstructionists jerking on his pride-string. It's your choice to step out of the comfort zone and do the right thing when surrounded by fools.

"Not so very long ago ... prisoners were regarded as slaves of the State". JONES v N. CAROLINA PRISONERS' UNION, 433 US 119, 139 (1977). This is what you become when you allow an obstructionist fool to lead you from the path of right and into his and your comfort zone of those lost in wrongdoing and evil. It's your choice to do right or wrong; to be wise or be a fool. When letting obstructionists make your choices, then you become a bigger fool than them and enslave yourself in ignorance of the right you should do.

Dear Brother Rudy & Sister Erin,

I had another vacation from prison. From 05 to 10 JUNE 2019, it was at HENRY FORD ALLEGIANCE HOSPITAL in Jackson, MI for 2 stents in my heart and one to my right kidney. From 01 to 04 JULY 2019, it was treatment and stabilization after a Postprandial Hypotension event after eating my 0430 hours breakfast. I certainly enjoyed the good food and speaking to intelligent doctors and nurses who understood what I said without trying to cover-up my medical symptoms.

On 01 JULY 2019 at 0430 hours, I ate my usual crackers and cheese breakfast. (This is so I don't pass-out in or upon leaving the chow hall upon eating my second breakfast at 0700 hours.) At 0450 hours, I broke out in a cold sweat and felt my blood pressure drop to near 50/20 mmHg. As usual, I had to go #2 but could barely get up from the toilet. I vomited on the way to Health Service where my blood pressure was 70/40 mmHg and pulse around 35 BPM for an hour while awaiting the ambulance. I had to go #2 and vomit again. As I played watching my blood pressure, blood oxygen and pulse decreasing, I said, "Hey, Lord, I'm on my way to be with you". These are the type of events of which you, I and Pat have spoken and Pat educated me on the cause in "Miracle in Atlanta".

I then spent 4-days in the hospital. This was the extreme Postprandial Hypotension with vision loss, that happens about once a year, rather than the usual of 70/40 to 90/50 mmHg events where I nap for 30-minutes every morning. It's the first time MDOC actually sent me to the hospital and monitored the hypotension occurring when I eat breakfast. I've had more medical care in the last year than I had in 20-years which I believe is the public scrutiny you've given.

Thanks for all the Blessings.

All for JESUS, I surrender...
